

▼ **INGREDIENTS**

Supplement Facts		
Serving Size: 3 capsules		
	Amount Per Serving	% Daily Value
Vitamin A	31,500 IU	630%
Vitamin E	21 IU	70%
Vitamin C (Calcium Ascorbate)	100 mg	167%
Calcium (Carbonate, Ascorbate)	60mg	6%
Proprietary Blend	1200 mg	*
<small>Rose Hips (Herb); Citrus Bioflavonoids; Dextrose; Paprika (Leaves); RNA/DNA Liver Tissue Factors; Damiana (Leaves); Pedra Hume Caa (Leaves); RNA/DNA Thymus Tissue Factors; Acacia Gum; RNA/DNA Spleen Tissue Factors; Carrot (Root); Peach (Bark); Sun Dew (Herb); Cassia Oil</small>		

* Daily Value is not established.
Other Ingredients: Gelatin and Leucine

▼ **DOSAGE**

- 1-3 capsules, up to twice per day for 1-3 months, or as directed.

▼ **PACKAGING**

- Capsules: 60 capsules/eco-bottle.

▼ **PERSPECTIVE**

When a bacteria, fungi or virus attacks the body, it often attacks the collagen which releases Vitamins A and C, both of which are deterrents to pathogen proliferation as well as antioxidant support for immunological responses. This is Nature's first line defense system. The body also uses Vitamins A and C for the reconstruction and maintenance of healthy collagen which supports tissue structure and function with "tissue integrity."

▼ **LIFESTYLE**

#101 ACP (Vitamin ACP)

Considered a 'drainage' support formula for over 40 years, ACP nutritionally supports healthy liver processes, collagen "tissue integrity," and fundamental natural immune processes. A favorite of Doc Wheelwright's, he updated it with Brazilian herbs to help with the increasing environmental factors that impact the body's innate purification processes.

▼ **INDICATIONS**

- Collagen support
- Winterization – prepare the body for challenges of winter
- Drainage support.
- Kidney support adjunctive
- Liver support adjunctive
- Normal purification processes

▼ **KEY COMPONENTS**

- **Vitamin A** – Particularly in our digestive tract, Vitamin A plays a key role in support of normal immune functions, helps the body's normal processes regarding bacterial and other microorganism relationships, and supports cellular metabolic functions. In the body, it supports the normal immune system, liver function, and collagen.
- **Vitamin C** – Antioxidant properties protect cells and their DNA from reactive oxygen species, it supports the body's normal immune system processes, and collagen tissue integrity.
- **Vitamin E** – Antioxidant qualities; it combines with oxygen and quenches free radicals. It protects polyunsaturated fats and other oxygen-sensitive compounds such as Vitamin A from being destroyed by damaging oxidation reactions.
- **Rose Hips** – Rich in full spectrum Vitamin C and bioflavonoids; strengthens body tissues; and is a component of a healthy vascular system.
- **Citrus Bioflavonoids** – Supports normal, healthy immune processes via its potent form of Vitamin C and pectins. Supports probiotic species proliferation. Helps support artery and vein elasticity and collagen.
- **Paprika** – Rich in carotenoids and Vitamin A. Plays a roll in healthy cell development. Supports the electron transport chain for energy production. Supports hemoglobin and myoglobin – two proteins tasked with transporting and storing oxygen.
- **Damiana** – Supports normal digestive processes, nerves, and overall metabolic functions particularly normal glucose metabolism. A rainforest herb with a long tradition of supporting normal blood/cell glucose processes for ATP production of energy required for the body's normal tissue maintenance processes. Research finds it helps cell membrane glucose receptors with normal sensitivity functions. In Brazilian herbology, it's also applicable for supporting normal nerve processes.

▼ **CONTRAINDICATIONS**

Vitamin A Advisory. Contains a robust amount of natural Vitamin A.

▼ **CLINICIAN CONSENSUS**

- Collagen & Connective Tissue Support:
 - #101 ACP - Vitamin ACP
 - #123 CLR - Chlorophyllin
 - #460 KYRO - Muscle/Tissue/Ligament
 - #870/871 & #872 Spectra One & Two
 - #200 AO - Aloe Vera

▼ **BACKGROUND**

Doc Wheelwright designed this formula as an all around "feel good" formula to support the body's normal recovery process after infections, colds, and flu. He focused on supporting the collagen "tissue integrity" citing that it was the collagen that serves as the 'mortar' that holds the cells together.

▼ **SYNERGISTIC CONSIDERATIONS**

- #150 PRO - Nutro Pro
- #460 KYRO - Muscle/Tissue/Ligament
- #133 JOT - Joint/Disc/Cartilage Support
- #41/#2041 Gt - Thymus
- #488/#1488/#2488 VIVI - Virox
- #200 AO - Aloe Vera
- #241 EV - Elixir Vita
- #245 RV - Renavator
- #126 CTV - Vitamin C
- #325 COLD - Zinca Stop
- #785 Wood Tonify - Tonify Blood
