

▼ **INGREDIENTS**

Supplement Facts	
Serving Size: 2 capsules	
Amount Per Serving	% Daily Value
Vitamin C (Magnesium Ascorbate) 98mg	160
Selenium (L-Selenomethionine) 20 mcg	28
Vitamin A (Beta Carotene) 5000 IU	100
Proprietary Blend	960 mg

Milk Thistle (Herb/Ext); Trans-Resveratrol; Wine Extract; Turmeric; Noni; Green Tea (Ext); Grape Skin (Ext); Grape Seed (Ext); Acai; Rose Hips; Thyme; Cranberry (Ext); Coenzyme Q10; L-Arginine HCl; L-Tyrosine; Hydroxyquinoline (Grapefruit Rind Ext); Oregano

\*Daily Value is not established

Other Ingredients: Gelatin, Leucine, Vegetable Stearates and Silica

▼ **DOSAGE**

- 1-2 capsules up to twice a day, for 1-6 weeks, or as directed.

▼ **PACKAGING**

- Capsules: 60 capsules/eco-bottle.

▼ **PERSPECTIVE**

Antioxidants have soared to nutritional and supplementation prominence in response to research addressing the impact of the 20th and 21st Century's toxic environment on the mitochondrial energy production processes. Many health experts advise supplementing a normal diet with additional, broad-spectrum antioxidant nutrients to help protect the body's natural free-radical processes used in making energy.

▼ **LIFESTYLE**

**#184 ROX (Super Antioxidant w/Resveratrol)**

This super antioxidant formula features a broad "blanket" approach for whole body support, especially for the circulation pathways and cell membranes. Contains resveratrol, a molecule that encourages youthful cellular genetic expressions. It supports normal health and cellular longevity activities, utilizing Nature's most cell-supportive botanical antioxidant ingredients. Provides nutrients and Herbalomic™ cellular nutrition ingredients that support molecular signaling activities shown to stabilize and protect normal cellular functions.

▼ **INDICATIONS**

- Mediate normal immune activity regarding free radicals
- Free radical safety
- Heart & cardiovascular support of normal cellular activities
- Youthful gene expression; SIRT-1 longevity genes
- Support normal DNA repair
- Support glutathione oxidase enzyme (powerful antioxidant system)
- Cell membrane health

▼ **KEY COMPONENTS**

- **Vitamin C** – Water soluble antioxidant, important for normal phagocytic (scavenger cell) function, T-lymphocyte function (cell-mediated immunity), B-lymphocyte and T-lymphocyte proliferation, and natural killer cell activity.
- **Vitamin A** – A fat-soluble antioxidant. Helps lymphocytes perform their normal duties.
- **Trans-Resveratrol** – A molecule from grapes with much research about its antioxidant and assistance to normal hormonal and transcriptive processes.
- **Wine Extract** – Contains trans-resveratrol, plus synergists. Antioxidant. Contains polyphenols that support normal cellular health.
- **Acai** – A much touted botanical antioxidant containing essential oils and fibers that support normal heart, digestive, and cellular functions.
- **Noni** – *Morinda citrifolia*. A powerful antioxidant that helps regulate normal immune and digestive function, supports normal mood and brain health, and helps normal blood lipid processes.
- **Green Tea Extract** – A botanical powerhouse of polyphenols and antioxidants. Often touted for its ability to help protect the skin from UVA and UVB radiation.
- **Turmeric** – One of the most extensively researched herbal wonders; a cornerstone of Ayurvedic herbology. Powerful antioxidant and regulator of normal immune activity. Can scavenge the hydroxyl radical, considered to be the most reactive oxidative agent in the body.
- **Beta-Carotene** – The vegetable form of Vitamin A. Works in tandem with other carotenoids, Vitamins C and E, lipoic acid, and antioxidant enzymes produced in the cells (superoxide dismutase, catalase, and glutathione peroxidase) for normal control of free radicals.
- **Thyme** – Potent antioxidant (contains antioxidant flavonoids apigenin, naringenin, luteolin, and thymonin), contains thymol which may help to increase Omega-3 fatty acids, or healthy fats, in brain cells.

- **Grape Seed Extract** – Contains flavonoids which protect the cells from free radical damage. Supports normal histamine activity.
- **CoQ10** – Helps protect mitochondrial membranes and LDL cholesterol from excessive oxidative damage. Useful to regenerate alpha tocopherol (Vit. E) from its oxidized state.
- **Cranberry Extract** – A fruit derived antioxidant with many nutritional benefits. Supports normal circulatory and immunological activities.
- **Milk Thistle** – One of the premier liver-supportive herbs, rich in the antioxidant, silymarin.

▼ **CONTRAINDICATIONS**

None.

▼ **CLINICIAN CONSENSUS**

- General Oxidative Stress Support
- **#184 ROX** - Super Antioxidant w/Resveratrol
- **#128 CVO** - Cardiovascular Oil
- **#820 EPIC** - Metabolic NO/ONOO Antioxidant
- **#433 GCEL** - Intracellular Glutathione

▼ **BACKGROUND**

Dr. Shayne Morris took the challenge to engineer a whole body, multi-system antioxidant support formula for daily use without upsetting the redox system's inherent balance. Designed to help avoid free radical damage to cell membranes and cellular metabolic processes, ROX supports normal cardiovascular health, cellular longevity processes, DNA integrity, and overall immune function. Considered a major breakthrough in nutritional support of cellular energy activities.

▼ **SYNERGISTIC CONSIDERATIONS**

- **#820 EPIC** - Metabolic NO/ONOO Antioxidant
- **#433 GCEL** - Intracellular Glutathione
- **#730 Energy Sedate** - Clear Heat
- **#870/ #872 Spectra One & Two** - Whole Food, Cell, Multivitamin/Mineral/Oil
- **#102 ACX** - Vitamin Detox
- **#128 CVO** - Cardiovascular Oil
- **#48 HQ** - Heart Energy
- **#101 ACP** - Vitamin A, C, P
- **#840 EVENTA** - Cellular Enzyme Corrector
- **#880/ #882 VISTA One & Two** - Membrane Regeneration
- **#130 EZV** - Vitamin E
