

▼ INGREDIENTS

Supplement Facts		
Serving Size: 2 capsules		
Amount Per Serving		% Daily Value
Potassium (Phosphate).....	10 mg	<1%
Proprietary Blend.....	885 mg	*
Canaigre (Herb)		
Inactive Saccharomyces cerevisiae		
Yucca (Root)		
Chaparral (Root)		
*Daily Value is not established.		

Other Ingredients: Cellulose and Lecithin

▼ DOSAGE

- 1-2 capsules up to twice a day, for 2-8 weeks, or as directed.
- Concentrated Extract (CXSENG): 3-5 drops, 2-3x/day, or as directed.

▼ PACKAGING

- Capsules: 60 capsules/eco-bottle.
- Concentrated Extract: ½ oz. glass bottle with dropper.

▼ PERSPECTIVE

Historically, in the Natural Health disciplines, the unique concepts of “Lymphatic Drainage” and “Lymphatic Support” are important topics as they support cellular nutrition, the immune system effectiveness, and the ever-important process of waste removal. Recognizing the importance of lymphatic circulation, modalities such as lymphatic drainage massage and lymphatic electro-stimulation became clinically important.

▼ LIFESTYLE

#486 SENG (Lymphogin) #2486 CXSENG (Lymphogin)

This herbal, “American Ginseng” formula helps support normal fluidity of the lymphatic system and promotes the normal flow of lymphatic fluids throughout the body. Canaigre, *Rumex hymenosepalus*, supports normal physical and athletic stamina, work efficiency, thinking skills and concentration. Native Americans used it as a general tonic to improve well-being. Its inherent tannins help reduce occasional water retentiveness via lymphatic circulation. With SENG, Canaigre is balanced with other nutrients to best utilize its ability to cleanse and stimulate the entire lymphatic system; it is also a glandular toner and helps the body's normal processes to dispel lymphatic congestion.

▼ INDICATIONS

- Lymphatic circulation
- Lymphatic “drainage” support
- Normal purification process support
- Endocrine system support adjunctive/enhancer
- Support normal energy processes
- Support normal “waterways” that bathe every cell

▼ KEY COMPONENTS

- **Canaigre** – A Native American herb long associated as a well-being tonic and supportive of stamina. Rich in plant tannins, supports normal lymph circulation and clear thinking.
- **Yucca** – A Native American blood and lymph tonic. Its high saponin content apparently does not enter the bloodstream, but acts only with the natural intestinal microbiota which then provide normal health supportive activities. An alkalizer.
- **Chaparral** – A Native American herb containing powerful antioxidants and nutrients. Has a long history of supporting normal purification pathways for both blood and lymph.
- **Pasteurized Saccharomyces Cerevisiae** – Provides plant-based, universal RNA/DNA for cellular rejuvenative processes and B-vitamins.

▼ CONTRAINDICATIONS

None in recommended dosages. Avoid using excessive large doses due to the impact of tannins, when in large amounts, can bind iron.

Not recommended during pregnancy or during nursing.

▼ CLINICIAN CONSENSUS

- Lymphatic Detoxification/Cleansing Support:
#486 SENG - Lymphogin
#82 S - Spleen
#483 OXOX - Activator Cell

▼ BACKGROUND

Doc Wheelwright learned about Canaigre from the Native Americans where it was used in support of sweat lodge rituals as well as for animal skin tanning due to its tannin content. Doc researched Canaigre's actions when combined with other Native American botanicals, Chaparral and Yucca, thus making a lymphatic-supportive formula that could enhance the impact of endocrine, liver, and any cellular purifying-support protocols. SENG was considered a “mystery formula” due to the lack of information on Canaigre but soon earned the praise of “evidence-based clinicians” as they discovered the benefits of improved lymphatic circulation for both normal purification and immune system regulation. Doc often employed this formula as “lymphatic drainage” for any cellular cleansing program.

▼ SYNERGISTIC CONSIDERATIONS

- **#31 Ga** - Adrenal
- **#82/#2082 S** - Spleen
- **#402 ARTA** - JointEz
- **#483/#2483 OXOX** - Activator Cell
- **#481/#2481 OXAA** - Organizer Cell
- **#482/#2482 OXCC** - Cleanser Cell
- **#60/#2060 L** - Liver
- **#61/#2061 Lb** - Liver/Gallbladder
- **#62/#2062 Ls** - Liver-s
- **#102/#1102/#2102 ACX** - Vitamin DTX
- **#433 GCEL** - Intracellular Glutathione
- **#408/#2408 CLNZ** - Chelator
