

▼ **INGREDIENTS**

Supplement Facts	
Serving Size: 2 capsules	
Amount Per Serving	% Daily Value
Proprietary Blend.....	930 mg
RNA/DNA Spleen Tissue Factors	
Pedra Hume Caa Leaves	
Boneset Herb	
Melissa Leaves	
Nettle Leaves	
Sweet Gum Tree Bark	
RNA/DNA Liver Tissue Factors	
RNA/DNA Pancreas Tissue Factors	
L-Leucine	
L-Lysine HCl	
L-Methionine	
L-Isoleucine	

* Daily Value not established.
Other Ingredients: Gelatin and Dextrose

▼ **DOSAGE**

- 1-2 capsules, twice a day, for 1 - 4 months, or as directed. Often taken away from food.
- Concentrated extract, CXS (Spleen): 4-5 drops, 2-3 times a day.

▼ **PACKAGING**

- 60 capsules/eco-bottle.
- Concentrated extract, CXS (Spleen), 1/2 oz. glass bottle with dropper.

▼ **PERSPECTIVE**

Revered in Traditional Chinese Medicine but sorely neglected in Western Medical disciplines, the spleen serves the immune system with B and T lymphocytes; maintains the blood by removing damaged erythrocytes and storing platelets; and serves as a filter to the lymphatic system.

▼ **LIFESTYLE**

#82 S (Spleen)

#2082 CXS (Spleen)

Nutrition support for the spleen - the 'heart' of the lymphatic system and powerful ally to the immune system. Features rare and unique herbs, nucleotides, peptides and cellular identity factors to support normal, healthy spleen function.

▼ **INDICATIONS**

- Immune system normal support
- Lymphatic system normal support
- Blood constituent support
- "Damp Spleen" concept (TCM)

▼ **KEY COMPONENTS**

- **Sweet Gum Tree Bark** – *Liquidambar styraciflua*. In Chinese medicine, sweet gum is known as Lu Lu Tong "all roads open." Promotes movement (blood/lymph) and opens channels (ch'i).
- **RNA/DNA Spleen Factors** – Specific support for the spleen's cellular identity and tissue integrity via organized amino acids, peptides, and nucleoprotein structures..
- **RNA/DNA Pancreas Factors** – Specific support for the pancreas' cellular identity and tissue integrity via organized amino acids, peptides, and nucleoprotein structures.
- **RNA/DNA Liver Factors** – Specific support for the livers' cellular identity and tissue integrity via organized amino acids, peptides, and nucleoprotein structures.
- **L-Leucine** – An essential, branched chain amino acid known in science research to support the body's natural antitumorogenesis processes. Manages other proteins, stabilizes cellular metabolic processes.
- **L-Isoleucine** – An essential, branched chain amino acid that provides myriad benefits to cellular metabolic processes.
- **L-Methionine** – An essential amino acid. Supplies sulfur that makes antioxidant nutrients. A methyl donor.
- **L-Lysine** – An essential amino acid with research indicating it supports the body's normal antitumorogenesis processes and supports normal spleen tissue.
- **Pedra Hume Caa** – A rainforest herb used in South American herbal traditions for the spleen/pancreas axis, thus often indicated as spleen-supportive in Brazilian herbal texts.

▼ **CONTRAINDICATIONS**

None known. While containing a number of therapeutic botanicals, Doc Wheelwright taught that combined herbal formula nutrients work synergistically deriving the most benefit from small amounts of ingredients that enhance and support each other to gain beneficial impact.

Note of consideration. Contains a small amount of L-Lysine and thus might be contraindicated during chemotherapy and radiation therapies for lung cancer.

▼ **CLINICIAN CONSENSUS**

- General Spleen Support:
#82 S - Spleen
#41 Gt - Thymus
#486 SENG - Lymphogin

▼ **BACKGROUND**

Doc Wheelwright was intrigued that there were so few effective spleen formulas available to help people. His research discovered the importance of amino acids to spleen health. He often cited that the spleen did not have a good inherent mechanism to heal itself and often needed support because of its role with the overworked immune and lymphatic systems. This formula was a personal challenge for him and he felt greatly rewarded when he created this uniquely effective product. The lymphatic system is a carrier of nucleoproteins, and the spleen filters and analyzes lymphatic content. This formula capitalizes on coupling an amino acid profile with specific herbal ingredients.

▼ **SYNERGISTIC CONSIDERATIONS**

- **#41 Gt** - Thymus
- **#403 ATAK** - Immune Rejuvenator
- **#486 SENG** - Lymphogin
- **#850 MoRS** - Methylation Donor
- **#184 ROX** - Super Antioxidant
- **#3 Bactrex**
- **#4 FungDx**
- **#488 VIVI** - Virox
- **#78 P** - Pancreas
- **#405 BLDB** - Blood Builder
- **#41 Gt** - Thymus
