

▼ **INGREDIENTS**

Supplement Facts		
Serving Size: 4 capsules		
Amount Per Serving		%Daily Value
Vitamin C (Mag Ascorbate).....	120 mg	200%
Vitamin B6 (Pyridoxine-AMG).....	43 mg	2150%
Vitamin B5 (Ca Pantothenate).....	28 mg	280%
Vitamin B12.....	40 mcg	665%
Vitamin B2 (Riboflavin 5-PO4).....	1.7 mg	100%
Zinc (Glycinate).....	3 mg	20%
Niacin.....	20 mg	100%
Magnesium (Ascorbate, Phosphate).....	12 mg	3%
Folate.....	400 mcg	100%
Enzyme Corrector Blend.....	1860 mg	-
L-Arginine HCl; L-Ornithine HCl; L-Valine; L-Tyrosine; L-Histidine HCl; L-Lysine HCl; L-Glutamine; L-Phenylalanine; Astragalus (Root); Stevia (Leaves); L-Glutathione; Choline Bitartrate		
*Daily Value Not Established		
Other Ingredients: Gelatin, Leucine and Silica		

▼ **DOSAGE**

- **EVENTA Capsules:** 2 - 3 capsules, once or twice a day, or as directed.
- **EVENTA-LQ Tincture:** ½ - 2 droppers, 3 times a day, or as directed.

▼ **PACKAGING**

- **Capsules:** 60 capsules/eco-bottle.
- **Tincture:** 1 oz. glass bottle with dropper.

▼ **PERSPECTIVE**

Nitric Oxide (NO), "molecule of the year, 1992" is essential for the body's self-regulation, especially as an intermediary for regulation of arterial dilation (it's a vasodilator that regulates blood pressure and arterial homeostasis). It is a "cell signaling" molecule involved in hundreds of healthy and unhealthy cellular metabolic processes. It helps maintain the liver in its daily function. NO received much media attention as a vasodilator targeting male reproductive performance. Also, NO is involved in neuro-development, insulin secretion, airway tone, and intestinal peristalsis.

▼ **LIFESTYLE**

**#840 EVENTA (Cellular Enzyme Corrector)**  
**#841 EVENTA-LQ (Liquid – Cellular Enzyme Corrector)**

EVENTA provides nutrients for the body's self-regulation of optimal cellular function via the many Nitric Oxide Synthase (eNOS, iNOS) pathways. Proper NOS management is critical for the body to manage oxidative stress in the cells' organelles and maintain efficient cellular metabolic functions. It provides amino acids, nutrients, and phytonutrients that the body can use to build the cellular enzyme systems that support muscle integrity, organ and gland health, and cellular energy processes. EVENTA is part of the family of Systemic Formulas' *Cellular Metabolism* research and works with other cellular formulas such as EPIC, MoRS, eNRG, VISTA One & Two, and Neurosyn.

▼ **INDICATIONS**

- The body's normal blood flow mechanisms
- Nutrients for the body's normal brain protective processes
- Male and female healthy sexual responses
- Muscular strength processes
- Support normal Human Growth Hormone activity
- Support cholesterol-sulfate synthesis for heart energy

▼ **KEY COMPONENTS**

- **Astragalus** – A Traditional Chinese Medicine herb, Shen Nong. An adaptogenic herb cited to support the body's normal stress relief processes. It also supports the body's natural macrophage utilization of nitric oxide and helps the NOS modulation.
- **Pyridoxine AMG** – Vitamin B6 Alpha Ketoglutarate – often used by body builders to assist the muscles in their normal cellular energy production processes; supports glutamine production necessary for cellular energy.
- **L-Arginine** – Research studies reveal its importance to hundreds of vital life processes via its conversion to nitric oxide. It is supportive of normal kidney function, cellular processes, blood flow, muscles and energy.
- **L-Ornithine** – An amino acid that plays a critical role in the urea cycle and arginine biosynthesis. Helps remove nitrogen and ammonia. Helps the body produce normal levels of human growth hormone.
- **Magnesium Phosphate** – Alkaline magnesium bound to phosphate. Supports normal glucose metabolic and NOS processes.
- **Zinc** – Stabilizes NOS activity and helps channel the metabolic enzyme processes.

▼ **CONTRAINDICATIONS**

**None.** Contains over 20 ingredients synergistically blended. [Check with physician or health care practitioner if pregnant.]

▼ **BACKGROUND**

Based on recent, published scientific studies, Dr. Shayne Morris, a nutrimental expert, applied that research toward supporting cellular NOS (Nitric Oxide Synthase) processes and the cellular metabolic functions that rely on NOS enzymes. Coupled with herbal research that demonstrates efficacious botanical influence over cellular epigenetic responses, Dr. Morris combined the nutrients, nutraceutical/metabolic ingredients, and herbal "activation" components into a synergistic matrix that provides the body the nutrients it can use for its normal cells organelles function.

▼ **SYNERGISTIC CONSIDERATIONS**

- **#850** MoRS
- **#39** Gf
- **#62** Ls
