

3

Bactrex

Immunity

Detox

Gut

KEY INDICATIONS

- Acute bacterial exposure (sinusitis, sore throat, ear infections)
- Respiratory infections with bacterial involvement
- Dysbiosis or SIBO patterns
- Recurrent sinus congestion or throat irritation
- Urinary tract irritation such as cystitis
- Early immune activation at first sign of bacterial illness
- Bacterial overgrowth affecting mucosal surfaces
- Short-term antimicrobial support during active infection

HOW IT WORKS

3 – Bactrex provides rapid antimicrobial support while reinforcing early immune response during active infection. The formula targets extracellular microbial burden and promotes immune signaling that activates white blood cell activity and mucosal defense. Unlike formulas designed for deeper or chronic microbial imbalance, 3 – Bactrex is intended for acute bacterial challenges where rapid immune activation and antimicrobial activity are needed to help restore microbial balance.

CLINICAL PEARLS

- Therapeutic dosing recommended during acute infections or when rapid microbial control is needed.
- Pair with **ImmuneGenic** to strengthen immune response during bacterial challenges.
- Combine with **CXVIVI** or **Clear 1 µBiomic** and **Clear 2 µBiomic** when broader antimicrobial coverage is required.
- Alternative liquid forms: **T3 – Bactrex Tincture** or **CX3 – Bactrex**.

SUPPLEMENT FACTS

Serving Size: 2 capsules Servings: 30

	Amount Per Serving	%DV
Calcium (Carbonate, Malate)	35 mg	3%
Magnesium (Chelate)	15 mg	4%
Proprietary Blend	310 mg	*
Oregon Grape (Root); <i>Echinacea Purpurea</i> (Root); Tayuya (Root); Poke (Root); Garlic (Root); RNA/DNA Sterilized (non-germinating) Yeast; Thymol Iodide; Pau D'Arco (Bark); L-Leucine; Gentian (Root); Yerba Santa (Herb); Goldenseal (Root); Hydroxyquinoline; Leptotaenia Oil		

*Daily Value not established.

Other Ingredients: Cellulose and Dextrose (Organic Grape).

KEY INGREDIENTS & BENEFITS

Oregon Grape (Root), Goldenseal (Root), Gentian (Root): Provide berberine-containing alkaloids that help inhibit bacterial replication while supporting gastrointestinal microbial balance. These botanicals also stimulate digestive secretions that help improve mucosal defense and microbial clearance in respiratory and digestive tissues during infection.

Garlic (Root), Thymol Iodide, Hydroxyquinoline, Leptotaenia Oil: Provide broad antimicrobial activity that helps disrupt bacterial and fungal survival while limiting microbial overgrowth. These compounds help reduce extracellular pathogen burden and support the body's natural antimicrobial defense mechanisms.

***Echinacea purpurea* (Root), Poke (Root), Pau D'Arco (Bark), Yerba Santa (Herb), Tayuya (Root):** Support immune activation and mucosal defense by promoting white blood cell activity, respiratory clearance, and immune signaling during microbial exposure.

RNA/DNA Sterilized (non-germinating) Yeast, L-Leucine, Calcium (Carbonate, Malate), Magnesium (Chelate): Support immune signaling, tissue repair, and metabolic resilience during infection and inflammatory stress.

INSTRUCTIONS

Maintenance dose: 1 capsule, twice daily

Therapeutic dose: 2 capsules three times daily (for 10 days)

ALLERGEN & DIETARY INFO

- cGMP Facility
- Non-GMO

SAFETY & CONTRAINDICATIONS

- Not recommended during pregnancy due to strong antimicrobial botanicals.
- Safety during lactation has not been established; use under practitioner guidance.
- Avoid long-term continuous use (generally no longer than 30 days unless directed by a healthcare professional).
- Leptotaenia (*Lomatium*) may cause a temporary systemic skin rash in sensitive individuals; if this occurs, discontinue use until the rash resolves, which typically occurs within a few days. The rash generally does not return when use is resumed.
