

# CXX

## Kidney

Detox

Hormone

Whole Body

## KEY INDICATIONS

- Difficulty urinating or weak urinary flow
- Mild fluid retention or swelling (edema)
- Kidney stress associated with high blood pressure
- Low back discomfort associated with kidney strain
- Urinary tract irritation or toxin elimination needs
- Sluggish lymphatic or metabolic waste drainage
- Fatigue associated with renal–adrenal stress patterns
- Impaired absorption or inability to swallow capsules

## HOW IT WORKS

CXX – Kidney is the concentrated liquid extract version of K – Kidney, formulated to support renal tissue integrity and metabolic waste elimination. The formula promotes healthy urinary flow, lymphatic drainage, and balanced fluid regulation while supporting the Kidney–Adrenal–Thalamus axis involved in blood pressure regulation and metabolic stress adaptation. By supporting tissue repair, antioxidant protection, and detoxification pathways, CXX – Kidney helps maintain kidney resilience, healthy filtration activity, and balanced fluid metabolism.

## CLINICAL PEARLS

- Therapeutic dosing recommended when renal stress, fluid retention, or toxin elimination demand is elevated.
- Pair with **KDIR** when lymphatic congestion or fluid retention is present.
- Combine with **Ks – Kidney S** for broader renal tissue support.
- Alternative capsule form: **K – Kidney**.

## SUPPLEMENT FACTS

**Ingredients:** H2O; Ethanol; **Extracts of:** Ca Ascorbate; RNA/DNA Kidney (Beef); Rose Hips (Hb); Gelatin; Epsom Salt; Cha De Bugre (Lf); Fish Liver Oil; Sete Sangrias (Hb); Ca Carb; Buchu (Lf); Juniper (Berry); Leucine; RNA/DNA Adrenal (Beef); Heperidin; Cleavers (Hb); Dextrose; L-Serine; RNA/DNA Thalamus (Beef); L-Phenylalanine; Rose Oil; Allantoin; L-Tyrosine; Spearmint Oil; Aloe Vera; Sodium Cu Chlorophyll

D/26A

## KEY INGREDIENTS & BENEFITS

**Calcium Ascorbate, Calcium Carbonate, Rose Hips (Hb), Hesperidin:** Provide antioxidant and vascular support that helps maintain connective tissue integrity and circulatory function important for healthy renal filtration and tissue resilience.

**RNA/DNA Kidney Tissue Factors (Bovine), RNA/DNA Adrenal Tissue Factors (Bovine), RNA/DNA Thalamus Tissue Factors (Bovine):** Provide glandular substrates that support cellular repair and communication within the Kidney–Adrenal–Thalamus axis involved in blood pressure balance, metabolic stress response, and renal function.

**Cha De Bugre (Lf), Juniper (Berry), Buchu (Lf), Cleavers (Hb), Sete Sangrias (Hb):** Support urinary flow, lymphatic drainage, and metabolic waste elimination while helping maintain fluid balance.

**Gelatin, L-Serine, L-Phenylalanine, L-Tyrosine:** Provide amino acids and structural support for tissue repair, metabolic signaling, and neuroendocrine communication.

**Fish Liver Oil, Spearmint Oil, Aloe Vera, Sodium Copper Chlorophyll, Magnesium Sulfate, Rose Oil, Dextrose:** Provide nutrients that support cellular metabolism and detoxification.

**Water, Ethanol:** Support extraction and stability of active constituents.

## INSTRUCTIONS

Maintenance dose:

Adults: 3 drops orally 2–3 times daily  
Children (ages 1–6): 2 drops orally up to 3 times daily

Therapeutic dose:

Adults: 6 drops orally 2–3 times daily  
Children (ages 1–6): 4 drops orally 2–3 times daily

## ALLERGEN & DIETARY INFO

- cGMP Facility
- Contains Fish (Fish Liver Oil)
- Gluten Free
- Non-GMO

## SAFETY & CONTRAINDICATIONS

- Individuals with phenylketonuria (PKU) should not use this product due to the presence of phenylalanine.
- Avoid use during pregnancy unless directed by a healthcare professional due to glandular tissue factors and diuretic botanicals.
- Safety during lactation has not been established; use under practitioner supervision.
- Contains bovine and fish-derived ingredients; not appropriate for individuals avoiding animal products.
- Avoid use in individuals with active severe renal inflammation or acute kidney failure unless strictly monitored.
