

# Ds

## Digest S

Gut

Detox

Whole Body

## KEY INDICATIONS

- Low stomach acid with poor appetite
- Heavy fullness with belching after meals
- Sluggish digestion of protein and fat
- Feeling overly full long after eating
- Nausea associated with slow digestion
- Weak digestive response to meals
- Fatigue or sleepiness immediately after eating
- Digestion that improves with bitters or acidic foods

## HOW IT WORKS

Ds - Digest S is designed to restore digestive drive when gastric activation and secretory tone are diminished. It supports robust initiation of the digestive cascade by enhancing stomach signaling and coordinated downstream responsiveness. By promoting stronger secretion dynamics and motility tone, it helps address patterns of sluggish digestion, prolonged fullness, and underpowered nutrient breakdown.

## CLINICAL PEARLS

- Pair with **L – Liver** to enhance hepatobiliary activation and support bile production.
- Pair with **MucosaGenic** when mucosal integrity is compromised.
- Use when symptoms improve with smaller meals or acidic foods.
- Best for hypochlorhydria patterns, not hyperacidity. Use therapeutic dosing when significant hypochlorhydria symptoms are present.

## SUPPLEMENT FACTS

Serving Size: 2 capsules Servings: 30

	Amount Per Serving	%DV
Calcium (Carbonate)	15.5 mg	2%
Betaine HCl	68 mg	*
L-Glutamic Acid	68 mg	*
L-Aspartic Acid	18 mg	*

Proprietary Blend	675 mg	*
Kola (Nut); Pancrelipase (Porcine); Spearmint (Lf); Echinacea Purpurea (Rt); RNA/DNA Ox Bile Tissue Factors (Bovine); RNA/DNA Liver Tissue Factors (Bovine); Papaya (Lf); RNA/DNA Stomach Tissue Factors (Porcine); Goldenseal (Rt); Gentian (Rt); Pancreatin (Porcine); Ammonium Chloride; Guava (Fruit); Bromelain; Pepsin 1/3000		

\*Daily Value not established.

Other Ingredients: Gelatin, Dextrose (Organic Grape), and Leucine.

## KEY INGREDIENTS & BENEFITS

**Calcium (Carbonate), Betaine HCl, L-Glutamic Acid, L-Aspartic Acid, Ammonium Chloride:** Support gastric acidification and pH reduction, promoting protein denaturation, mineral ionization, and activation of pepsin for effective gastric digestion.

**Kola (Nut), Gentian (Rt), Goldenseal (Rt):** Stimulate gastric and digestive secretions through bitter receptor activation, enhancing appetite, digestive signaling, and motility.

**Pancrelipase (Porcine), Pancreatin (Porcine), Bromelain:** Provide broad-spectrum enzymatic activity to support breakdown of proteins, fats, and carbohydrates across gastric and pancreatic phases of digestion.

**Pepsin 1/3000, RNA/DNA Ox Bile Tissue Factors (Bovine), RNA/DNA Liver Tissue Factors (Bovine), RNA/DNA Stomach Tissue Factors (Porcine):** Support protein digestion, bile flow, and organ-specific digestive signaling for coordinated hepatobiliary and gastric function.

**Spearmint (Lf), Echinacea purpurea (Rt), Papaya (Lf), Guava (Fruit):** Support digestive comfort, mucosal integrity, and localized immune activity within the digestive tract during active digestion.

## INSTRUCTIONS

Maintenance dose: 1 capsule before each meal

Therapeutic dose: 2 capsules before each meal

## ALLERGEN & DIETARY INFO

- cGMP Facility
- Non-GMO

## SAFETY & CONTRAINDICATIONS

- Discontinue use if burning, abdominal pain, or persistent discomfort occurs.
- Use caution in individuals with gastric or duodenal ulcers, active gastritis, or confirmed hyperchlorhydria.
- This product is considered low risk during pregnancy and nursing when used at maintenance dosing; consult a healthcare provider for therapeutic dosing.
- This product is generally safe for children when used at age-appropriate doses under practitioner guidance.
- This product contains glandular ingredients and is not suitable for vegetarians.
