

# RPM Omega

Pro-Resolvin / Protectin /  
Maresin

Cardio

Brain

Immunity

## KEY INDICATIONS

- Inflammation that persists beyond the expected healing window
- Recurrent or lingering joint pain and stiffness (Arthritis)
- Cardiovascular inflammation with impaired vascular recovery
- Neuroinflammation contributing to cognitive decline or mental fatigue
- Chronic fatigue linked to unresolved inflammatory stress
- Skin or gut inflammation with incomplete healing or recurring flares
- Post-injury or post-illness recovery with delayed resolution
- Inflammatory patterns that cycle or fail to fully clear

## HOW IT WORKS

This formula supports the body's ability to actively resolve inflammation rather than remain stuck in a prolonged inflammatory state. It helps optimize cell membrane composition, enabling the production of specialized pro-resolving lipid mediators that guide the transition from inflammation into repair. This promotes a more controlled inflammatory response, improved tissue recovery, and overall balance. It also supports cyclooxygenase pathway balance, helping regulate the body's response to discomfort while facilitating a smooth progression from irritation into recovery. It is best utilized when inflammation is lingering, cycling, or not fully resolving after injury, illness, or stress.

## CLINICAL PEARLS

- Pair with **ImmuneGenic** when inflammation is driven by frequent infections or poor recovery.
- Pair with **NeuroGenic** when brain fog, slow thinking, or mental fatigue persist after illness or inflammation.
- Pair with **MucosaGenic** and **EnzyGenic** for gut-driven inflammation (Crohn's, colitis).
- Use therapeutic dosing for 2–6 weeks when inflammation lingers or recurs.

## SUPPLEMENT FACTS

Serving Size: 2 Softgels Servings: 30

	Amount Per Serving	%DV
Total Calories	14	
Calories from Fat	13	
Total Fat	1.4 g	2%
EPA (Eicosapentaenoic Acid)	160 mg	*
DHA (Docosahexaenoic Acid)	75 mg	*
Total Omega-3s	300 mg	*
Salicin (White Willow Bark)	6 mg	*

\*Daily Value not established.

Other Ingredients: Krill Oil (Shellfish), Gelatin, Beeswax, Vegetable Glycerin, Purified Water.

## KEY INGREDIENTS & BENEFITS

**EPA, DHA, Total Omega-3s (From Krill Oil):** Provide bioavailable omega-3 fatty acids that incorporate into cellular membranes where they influence eicosanoid signaling, support vascular and neurological tissue function, and generate pro-resolving lipid mediators that guide the body from inflammatory activation into resolution and tissue repair. These fatty acids also support membrane flexibility, blood flow, and help regulate inflammatory tone across multiple systems, including joints, brain, and cardiovascular tissues.

**Salicin:** Provides salicin along with supportive plant compounds that help maintain cyclooxygenase (COX) pathway balance and the body's natural response to discomfort. It supports a more controlled inflammatory process while contributing to reduced irritation, improved comfort, and a smoother transition from inflammation into recovery and tissue repair.

## ALLERGEN & DIETARY INFO

- cGMP Facility
- Gluten Free
- Non-GMO
- Contains: Shellfish (Krill)

## INSTRUCTIONS

Maintenance dose: 1 softgel twice daily

Therapeutic dose: 2 softgels twice daily

## SAFETY & CONTRAINDICATIONS

- Generally considered safe during pregnancy and lactation under the guidance of a qualified healthcare practitioner; it supports healthy inflammatory balance and vascular function, important for maternal health and fetal development.
- Contraindicated for individuals with a known allergy to shellfish.
- Appropriate for pediatric use under professional supervision with dosing individualized based on age, size, and clinical needs; supports healthy inflammatory responses, child brain and tissue development, and overall cellular function.
- Use caution in patients with known sensitivity to salicylates (aspirin) or those taking anticoagulant/antiplatelet medications.
