

SENG

Lymphogin

Immunity

Detox

Brain

KEY INDICATIONS

- Swollen or tender lymph nodes during illness or detox
- Lymphatic congestion with puffiness or fluid stagnation
- Skin breakouts associated with poor lymphatic drainage
- Detox reactions such as headache or fatigue during cleansing
- Slow recovery from infections with lingering lymph swelling
- Mild edema or tissue fluid retention not explained by kidney issues
- Athletic recovery requiring improved metabolic waste clearance
- General detoxification and cellular cleansing support

HOW IT WORKS

SENG supports lymphatic circulation and cellular detoxification by combining botanical lymphagogues, metabolic cofactors, and nucleic acid-rich nutrients that help mobilize metabolic wastes from tissues. Traditional Southwestern herbs stimulate lymphatic flow and extracellular fluid movement, while plant-derived nucleic acids support cellular repair and metabolic vitality. Together these ingredients help maintain efficient waste transport through lymphatic and circulatory pathways, supporting energy production, tissue cleansing, and overall physiological resilience.

CLINICAL PEARLS

- Pair with **DetoxiGenic** to mitigate detox symptoms from inadequate lymphatic drainage.
- Combine with **ImmuneGenic** when swollen or tender lymph nodes accompany immune activation
- Use therapeutic dosing during lymphatic congestion, immune burden, skin eruptions, or visibly impaired drainage.

SUPPLEMENT FACTS

Serving Size: 1 capsule Servings: 60

	Amount Per Serving	%DV
Potassium (Phosphate)	4.8 mg	<1%
Proprietary Blend	440 mg	*
Citrus Bioflavonoids		
Inactive <i>Saccharomyces cerevisiae</i>		
Yucca (Root)		
Canaigre (Root)		
Chaparral (Leaf)		
American Ginseng (Root)		

*Daily Value not established.

Other Ingredients: Cellulose and Leucine.

F/25

KEY INGREDIENTS & BENEFITS

Potassium (Phosphate): Provides a trace electrolyte that supports cellular fluid balance and metabolic processes involved in maintaining healthy tissue hydration and circulation.

Citrus bioflavonoids: Provide antioxidant polyphenols that support capillary integrity, improve microcirculation, and help protect tissues from oxidative stress while supporting normal lymphatic fluid movement.

Inactive *Saccharomyces cerevisiae*: Provides naturally occurring RNA and DNA nucleic acids that support cellular repair, metabolic activity, and protein synthesis involved in maintaining healthy lymphatic and connective tissue function.

Yucca (Root), Canaigre (Root), Chaparral (Leaf), American Ginseng (Root): Provide botanical compounds traditionally used to stimulate lymphatic circulation, support detoxification processes, and promote the movement of metabolic wastes through lymphatic and circulatory pathways. American ginseng provides adaptogenic compounds that support metabolic energy, endurance, and cellular resilience.

INSTRUCTIONS

Maintenance dose: 1 capsule daily

Therapeutic dose: 2 capsules with 2 meals/day

ALLERGEN & DIETARY INFO

- cGMP facility
- Non-GMO

SAFETY & CONTRAINDICATIONS

- Not recommended during pregnancy due to the presence of chaparral and other strong detoxifying botanicals.
- Safety during lactation has not been established; use only under practitioner supervision.
- Individuals with liver disorders should consult a healthcare practitioner before use due to chaparral content.
