

ATAK

Immune Rejuvenator

Immunity

Gut

Detox

KEY INDICATIONS

- Recurrent infections that return after treatment
- Chronic sinus, lymph node, or glandular congestion
- Persistent immune activation with fatigue or malaise
- Slow recovery following infection or illness
- Suspected hidden or low-grade microbial burden
- Swollen or tender lymph nodes
- Detoxification support during microbial clearing protocols
- Immune resilience when lymphatic congestion is present

HOW IT WORKS

Persistent microbial stress often develops in areas where circulation, immune access, and lymphatic drainage are reduced, allowing organisms and inflammatory debris to accumulate within connective tissues and extracellular spaces. ATAK supports physiological processes that help the body restore immune surveillance and tissue clearance. By promoting lymphatic movement, immune signaling, and metabolic elimination pathways, the formula helps the body identify and remove lingering microbial stressors while supporting recovery of normal immune responsiveness.

CLINICAL PEARLS

- Consider when infections repeatedly return after antimicrobial therapy.
- Combine with **LymphGenic** to support lymphatic drainage during microbial clearing.
- Use with **VIVI** or **3 – Bactrex** when stealth pathogens are suspected.
- Therapeutic dosing recommended during active microbial clearing protocols.

SUPPLEMENT FACTS

Serving Size: 2 capsules Servings: 30

	Amount Per Serving	%DV
Proprietary Blend	825 mg	*
Pau D' Arco (Bark); Yarrow (Flower); Stevia (Leaf); Calcium Carbonate; Betaine Hydrochloride; Tayuya (Root); Gravel (Root); <i>Pimpinella</i> (Root); Tansy (Herb); Yellow Dock (Root); <i>Echinacea Purpurea</i> (Root); Rose Hips (Herb)		

*Daily Value not established.

Other Ingredients: Cellulose, Leucine, Vegetable Stearate, and Silica.

KEY INGREDIENTS & BENEFITS

Pau D'Arco (Bark), Yarrow (Flower), Tayuya (Root), Gravel Root, *Pimpinella* (Root), Tansy (Herb), Yellow Dock (Root): Provide botanical compounds traditionally used to support antimicrobial defense, lymphatic circulation, and metabolic clearance. These herbs help promote immune surveillance and assist the body in clearing microbial debris and inflammatory byproducts that may accumulate within connective tissues.

***Echinacea Purpurea* (Root), Rose Hips:** Support immune activation and antioxidant protection. These botanicals help promote macrophage activity, support inflammatory balance, and strengthen immune responsiveness during periods of microbial stress.

Stevia (Leaf): Provides phytochemicals with mild antimicrobial and antioxidant properties that complement the broader botanical immune complex.

Betaine Hydrochloride: Supports digestive activation and gastric acidity, helping improve botanical absorption while supporting gastrointestinal microbial balance.

Calcium Carbonate: Provides mineral buffering that supports digestive chemistry and metabolic conditions favorable for nutrient assimilation and immune function.

INSTRUCTIONS

Maintenance dose: 2 capsules daily with or without food

Therapeutic dose: 2 capsules 2-3 times daily with or without food

ALLERGEN & DIETARY INFO

- cGMP Facility
- Non-GMO
- Gluten Free

SAFETY & CONTRAINDICATIONS

- This product is contraindicated during pregnancy due to the inclusion of tansy and other antimicrobial botanicals.
- Use caution during lactation; safety has not been established and use should be guided by a qualified healthcare practitioner.
- Use caution in patients with known allergies to the *Asteraceae* (daisy) family due to yarrow and tansy content.
- Use caution in patients with active peptic ulcers or gastritis due to the presence of betaine hydrochloride.
- Consult a practitioner before use if the patient has a progressive autoimmune condition.
