

# CXL

## Liver

Detox

Gut

Hormone

## KEY INDICATIONS

- General liver building support
- Gallbladder stress or impaired bile flow
- Fatigue associated with toxic or medication burden
- Hormonal imbalance related to impaired liver metabolism
- Skin breakouts or inflammatory skin patterns linked to detox burden
- Chemical or environmental toxin exposure
- Sluggish detoxification or metabolic waste clearance
- Impaired absorption or inability to swallow capsules

## HOW IT WORKS

CXL – Liver is the concentrated liquid extract form of L – Liver, designed to support hepatic tissue integrity and hepatobiliary detoxification pathways. The formula promotes healthy bile flow, antioxidant protection, and enzymatic processes involved in hepatic detoxification. By supporting liver cell resilience and metabolic waste processing, CXL – Liver helps maintain balanced detoxification activity and hepatic function during toxin exposure, digestive stress, or increased metabolic demand.

## CLINICAL PEARLS

- Therapeutic dosing recommended when hepatic stress or detoxification demand is elevated.
- Pair with **Ls – Liver S** to support functional liver activity.
- Combine with **Lb – Liver/Gallbladder** when bile flow support is needed.
- Alternative capsule form: **L – Liver**.

## SUPPLEMENT FACTS

**Ingredients:** Water;  
Ethanol; **Extracts of:**  
Celandine (Hb);  
Mountain Mahogany (Lf);  
RNA/DNA Liver Tissue  
Factors (Bovine);  
Spearmint (Lf); Cod Liver  
Oil (Fish); Quince (Sd);  
Yeast; Goldenseal (Rt);  
Leucine; Boldo (Lf);  
Ragweed (Hb);  
Magnesium Ascorbate;  
Vitamin E

## KEY INGREDIENTS & BENEFITS

**RNA/DNA Liver Tissue Factors (Bovine):** Provide nucleoprotein substrates traditionally used to support hepatic cellular repair, enzyme transcription processes, and metabolic signaling involved in liver regeneration and detoxification.

**Mountain Mahogany (Lf), Boldo (Lf), Celandine (Hb), Goldenseal (Rt):** Provide botanicals traditionally used to support bile production, hepatobiliary function, and detoxification activity within liver tissues.

**Quince (Sd), Ragweed (Hb), Spearmint (Lf):** Support digestive synergy, mucosal balance, and circulatory support that assists metabolic processing of toxins and digestive byproducts.

**Cod Liver Oil (Fish):** Provides lipid nutrients that help support hepatocyte membrane stability and metabolic signaling during detoxification processes.

**Vitamin E, Magnesium Ascorbate:** Provide antioxidant cofactors that help protect liver cells from oxidative stress and support detoxification enzyme activity.

**Brewer's Yeast (Debittered):** Supplies naturally occurring nutritional cofactors that support hepatic metabolic enzyme systems and cellular resilience.

**Water, Ethanol:** Support extraction, solubility, and preservation of botanical constituents, maintaining stability and bioavailability of active compounds.

## INSTRUCTIONS

Maintenance dose:

Adults: 2–5 drops orally 2–3 times daily.

Children (ages 1–6): 1–3 drops orally up to 3 times daily.

Therapeutic dose:

Adults: 6 drops orally 2–3 times daily.

Children: 4 drops orally 2–3 times daily.

## ALLERGEN & DIETARY INFO

- cGMP Facility
- Non-GMO
- Gluten Free
- Contains Fish (Cod Liver Oil)

## SAFETY & CONTRAINDICATIONS

- Avoid use during pregnancy unless directed by a healthcare professional due to bile-stimulating botanicals.
- Safety during lactation has not been established; use cautiously under practitioner supervision.
