

CXVRM1

Large

Gut

Immunity

Detox

KEY INDICATIONS

- Visible worm segments or unusual material in stool
- Unexplained hunger, weight changes, or nutrient depletion
- Abdominal discomfort, bloating, or fullness with suspected parasitic involvement
- Irregular bowel patterns associated with parasitic burden
- Persistent GI disruption despite standard microbiome support
- Anal itching or discomfort suggestive of parasitic activity
- Fatigue associated with chronic parasitic stress
- Impaired absorption or inability to swallow capsules

HOW IT WORKS

CXVRM1 is the concentrated liquid extract form of the VRM1 formula designed to support intestinal cleansing when larger parasitic organisms are suspected. The formula works by disrupting parasite survival conditions within the gastrointestinal tract while promoting coordinated elimination through digestive and detoxification pathways. Proteolytic activity helps expose organisms that may be protected within intestinal debris, while binding and cleansing actions assist in carrying metabolic waste, toxins, and unwanted organisms out through normal bowel elimination.

CLINICAL PEARLS

- Use therapeutic dosing during active parasite cleansing or when symptoms are pronounced.
- Pair with **Clear 1 μBiomic** and **Clear 2 μBiomic** for full-spectrum parasite protocols.
- Combine with **BindGenic** and **C - Colon** to support toxin binding and elimination.
- Alternative formula: **VRM1** (capsules).

SUPPLEMENT FACTS

Ingredients:

Water; Ethanol

Extracts of:

Pau D'Arco (Bark); Dextrose (Organic Grape); Black Walnut (Leaf); Rose Hips (Herb); Garlic (Root); Hops (Extract); Valerian (Root); L-Leucine; Bromelain; Sweet Wormwood; Jalapa (Root); Clay; Wormseed Oil

KEY INGREDIENTS & BENEFITS

Pau D'Arco (Bark), Black Walnut (Leaf), Sweet Wormwood, Wormseed Oil, Garlic (Root): Provide traditional antiparasitic phytochemicals that help disrupt parasite viability and create an intestinal environment unfavorable to larger parasitic organisms while supporting microbial balance within the gastrointestinal tract.

Bromelain, Jalapa (Root), Clay: Support proteolytic activity, binding, and elimination. Bromelain helps break down protein-based debris that may shield organisms, Jalapa (Root) supports intestinal motility, and Clay assists in binding toxins and metabolic byproducts for removal.

Rose Hips (Herb): Provide antioxidant and bioflavonoid support to maintain mucosal integrity and reduce irritation during cleansing.

Hops (Extract), Valerian (Root): Provide calming botanical support that helps regulate intestinal tension and support coordinated motility during parasite cleansing protocols.

Water, Ethanol, Dextrose (Organic Grape), L-Leucine: Support extraction, stability, delivery, and metabolic support during active cleansing.

INSTRUCTIONS

- Maintenance dose:
Adults: 2–6 drops orally 2–3 times daily.
Children (ages 1–6): 1–3 drops orally up to 3 times daily.
- Therapeutic dose:
Adults: 6 drops orally up to 4 times daily.

ALLERGEN & DIETARY INFO

- cGMP Facility
- Gluten Free
- Non-GMO

SAFETY & CONTRAINDICATIONS

- Not recommended during pregnancy or lactation due to the presence of botanicals that may have uterine-stimulating, neuroactive, or insufficiently studied effects in these populations.
- Monitor for detoxification reactions, including fatigue or skin responses, and adjust dosing as needed.
- For pediatric use, consult a qualified healthcare practitioner to determine appropriate dosing based on age, weight, and sensitivity.
- Not intended for long-term continuous use; this formula is designed for targeted, short-term use within structured cleansing protocols under practitioner guidance.
- Use caution in individuals with liver or kidney conditions as concentrated botanical extracts and ethanol content may increase metabolic burden.
