

CXVRM2

Small

Immunity

Detox

Gut

KEY INDICATIONS

- Signs or suspicion of small, thread-like intestinal parasites (e.g., pinworms)
- Anal itching, especially at night, suggestive of small parasitic organisms
- Restless sleep, irritability, or teeth grinding associated with parasite activity
- Bloating, gas, or intestinal irritation linked to small parasitic organisms
- Digestive disturbance associated with parasitic or microbial imbalance
- Support during intestinal cleansing protocols targeting small parasites
- Support for microbiome restoration following parasite cleansing
- Impaired absorption or inability to swallow capsules

HOW IT WORKS

CXVRM2 is the concentrated liquid extract form of the VRM2 formula designed to support intestinal balance when small, thread-like parasitic organisms are suspected. The formula works by disrupting conditions that allow parasites to persist while promoting coordinated intestinal cleansing and elimination. Proteolytic activity helps expose organisms that may be protected within intestinal debris, while supportive detoxification and motility processes assist the body in removing unwanted organisms and their metabolic byproducts through normal bowel elimination.

CLINICAL PEARLS

- Use therapeutic dosing during active symptoms such as itching, sleep disruption, or confirmed parasite patterns.
- Pair with **Clear 1 μ Biomic** and **Clear 2 μ Biomic** for full parasite protocols.
- Combine with **BindGenic** and **C – Colon** to support binding and elimination.
- Alternative formula: **VRM2 capsules**.

SUPPLEMENT FACTS

Ingredients: Water; Ethanol;
Extracts of: Black Walnut (Leaf);
Wormseed (Herb); Kamala (Herb);
Quassia (Bark); Bromelain;
L-Leucine; Betel (Nut)

KEY INGREDIENTS & BENEFITS

Wormseed (Herb), Kamala (Herb): Provide traditional botanical compounds used to support intestinal cleansing and create an environment unfavorable to small parasitic organisms. These ingredients help disrupt parasite viability and support microbial balance within the gastrointestinal tract.

Black Walnut (Leaf), Quassia (Bark), Betel (Nut): Provide botanical compounds that support intestinal cleansing and help create conditions unfavorable to parasitic persistence. These ingredients also supply bitter phytochemicals that support digestive secretions and contribute to a less hospitable intestinal terrain.

Bromelain: Provides proteolytic enzyme activity that helps break down dietary proteins, inflammatory debris, and biological material within the intestinal environment. This supports digestive efficiency and helps expose organisms that may be protected within intestinal residue.

L-Leucine: Supports amino acid availability for cellular repair, metabolic function, and recovery during intestinal stress.

Water, Ethanol: Support extraction, preservation, and stability of active botanical constituents while allowing for efficient delivery in liquid form.

INSTRUCTIONS

Take on an empty stomach 30 minutes before meals, or as tolerated. Refrigeration is not required.

Maintenance dose:

Adults: 2–6 drops orally 2–3 times daily

Children (ages 1–6): 1–3 drops orally, up to 3 times daily

Therapeutic dose: 6 drops up to 4 times daily

ALLERGEN & DIETARY INFO

- cGMP Facility
- Non-GMO

SAFETY & CONTRAINDICATIONS

- Not recommended during pregnancy or lactation due to the presence of botanicals that may have uterine-stimulating, neuroactive, or insufficiently studied effects in these populations.
- For pediatric use, consult a qualified healthcare practitioner to determine appropriate dosing based on age, weight, and sensitivity.
- Not intended for long-term continuous use; this formula is designed for targeted, short-term use within structured cleansing protocols under practitioner guidance.
- Use caution in individuals with known allergies to tree nuts (Black Walnut) or pineapple (Bromelain).
- Use caution in individuals with liver or kidney conditions as concentrated botanical extracts and ethanol content may increase metabolic burden.
