

Cats-A-Tonic

Cat's Claw Blend

Immunity

Detox

Whole Body

KEY INDICATIONS

- Lyme disease support protocols
- Lyme concomitant microbial infections (*Epstein Barr*, *Ehrlichia spp.*, *Mycoplasma spp.*)
- *Babesia* (protozoa) and *Bartonella* (bacteria) support protocols
- Viral infection support
- Fungal overgrowth or fungal infection support
- Immune stress with inflammatory burden
- Stealth pathogens

HOW IT WORKS

This formula supports innate immune signaling, hepatic detoxification pathways, and mucosal immune defense during microbial stress, especially *Borrelia burgdorferi* (Lyme). Botanical compounds influence macrophage activity and cytokine signaling involved in immune recognition and response. Hepatic cofactors support Phase I and Phase II detoxification pathways that help process microbial byproducts and inflammatory metabolites. Respiratory mucosal support helps maintain airway immune defense, while systemic antioxidant nutrients help protect tissues during prolonged immune activation.

CLINICAL PEARLS

- Use with **TVIVI** for viral infections and use with **Tai Ra Chi** for fungal infections.
- Use with **VRM3** for protozoal concerns.
- Use with **Imperial Ataker** for joint-located spirochete concerns.
- Use therapeutic dosing during active infection.

SUPPLEMENT FACTS

Ingredients:

Water; Ethanol; Cat's Claw (Bk); Stevia (Lf); Pau D'Arco (Bk); Devil's Claw (Rt); Magnesium Ascorbate; Rose Hips; Citrus Bioflavonoids; RNA/DNA Liver Tissue Factors (Bovine); Peach (Bk); Beet (Rt); Betaine HCl; Choline L-Bitartrate; L-Leucine; Bupleurum (Rt); *Tussilago* (Fl); *Fritillaria* (Zhe Bei Mu); Trace Minerals

KEY INGREDIENTS & BENEFITS

Cat's Claw (Bk), Pau D'Arco (Bk), Devil's Claw (Rt):

Provide botanical compounds that support immune modulation, microbial balance, and inflammatory regulation through effects on macrophage activity, cytokine signaling, and host defense pathways during bacterial, viral, and fungal challenges.

Bupleurum (Rt), Peach (Bk), Beet (Rt), RNA/DNA Liver Tissue Factors (Bovine), Choline L-Bitartrate, Betaine HCl:

Support hepatic detoxification, bile movement, and methylation processes that enhance clearance of microbial byproducts, endotoxins, and inflammatory metabolites during immune stress.

Rose Hips, Citrus Bioflavonoids, Magnesium

Ascorbate, Trace Minerals: Provide antioxidant and micronutrient support that promotes immune signaling, connective tissue integrity, and protection against oxidative stress associated with chronic infection.

Tussilago (Fl), *Fritillaria* (Zhe Bei Mu), Stevia (Lf),

L-Leucine: Support respiratory mucosal defense, tissue recovery, and metabolic signaling during immune activation.

Water, Ethanol: Support extraction, solubility, and preservation of botanical constituents, maintaining stability and bioavailability of active compounds.

INSTRUCTIONS

- Maintenance dose: 2 droppers twice daily in water or juice away from food
- Therapeutic dose: 2 droppers up to four times daily away from food
- Children: 1 dropper twice daily in water or juice

ALLERGEN & DIETARY INFO

- cGMP Facility
- Gluten Free
- Non-GMO

SAFETY & CONTRAINDICATIONS

- Not recommended during pregnancy due to immunomodulatory botanicals; use only under practitioner supervision if necessary.
- Consult a healthcare professional before use during lactation.
- Use caution in patients with autoimmune conditions due to immune-stimulating effects.
- Discontinue use two weeks prior to elective surgery due to potential blood-thinning mechanisms of certain botanicals.
