

L

Liver

Detox

Gut

Hormone

KEY INDICATIONS

- Reduced hepatic capacity following medication or environmental stress
- Impaired hormone processing (estrogen dominance patterns)
- Fatigue associated with reduced liver capacity
- Skin issues linked to impaired hepatic function (acne, congestion patterns)
- Inconsistent liver function under sustained workload
- Inefficient processing of nutrients, hormones, or internal waste
- Reduced capacity to maintain stable liver performance
- Structural hepatic rebuilding within comprehensive liver protocols

HOW IT WORKS

L – Liver supports the structural integrity and resilience of hepatocytes, helping restore consistent liver performance under metabolic demand. Rather than directly stimulating detoxification or bile flow, this formula focuses on rebuilding the liver’s foundational capacity—improving cellular efficiency, membrane stability, and enzyme readiness. This “build first” approach allows the liver to sustain hormone regulation, nutrient processing, and internal metabolic balance more effectively over time.

CLINICAL PEARLS

- Pair with **Ls – Liver S** for skin flares, hormone imbalance issues, or impaired toxin clearance.
- Pair with **Lb – Liver/Gallbladder** when post-meal bloating or heaviness suggests poor bile production.
- Use **CXL – Liver** when liquid delivery is needed.
- Therapeutic dosing during increased liver workload, recovery from illness, medication changes, or alcohol exposure.

SUPPLEMENT FACTS

Serving Size: 2 capsules Servings: 30

	Amount Per Serving	%DV
Vitamin E	1 mg	7%
Proprietary Blend	890 mg	*
Celandine (Hb)		
Mountain Mahogany (Lf)		
RNA/DNA Liver Tissue Factors (Bovine)		
Spearmint (Lf)		
Cod Liver Oil (Fish)		
Goldenseal (Rt)		
Quince (Seed)		
Yeast		
Boldo (Lf)		
Ragweed (Hb)		
Magnesium Ascorbate		

*Daily Value not established.

Other Ingredients: Gelatin and Leucine.

KEY INGREDIENTS & BENEFITS

RNA/DNA Liver Tissue Factors (Bovine): Provide nucleic acids that support liver repair, enzyme activity, and overall liver cell function, helping restore the liver's structural integrity and metabolic capacity.

Boldo (Lf), Celandine (Hb): Provide botanical support that helps maintain healthy hepatic function and supports overall liver activity at the cellular level.

Mountain Mahogany (Lf), Goldenseal (Rt), Quince (Seed), Ragweed (Hb), Spearmint (Lf): Provide botanical support for metabolic balance and overall liver resilience, helping maintain consistent liver function under normal physiological demands.

Cod Liver Oil (Fish), Vitamin E, Magnesium Ascorbate: Supply fat-soluble nutrients and antioxidant support to help protect liver cell membranes and support cellular integrity and long-term liver function.

Brewer's Yeast (Debittered): Provides naturally occurring cofactors that support metabolic enzyme activity, helping maintain efficient nutrient processing and overall liver performance.

INSTRUCTIONS

Maintenance dose: 1 capsule twice daily with food.

Therapeutic dose: 2 capsules twice daily with food.

ALLERGEN & DIETARY INFO

- cGMP Facility
- Non-GMO
- Gluten Free
- Contains Fish (Cod Liver Oil)

SAFETY & CONTRAINDICATIONS

- During pregnancy and lactation, use only under the guidance of a qualified healthcare practitioner due to the inclusion of glandulars and active botanical compounds.
- Appropriate for pediatric use under professional supervision; dosing should be individualized based on age, tolerance, and clinical presentation. Consider CXL - Liver liquid when a child-friendly option is needed.
