

CLNZ

Chelator

Detox

Gut

Brain

KEY INDICATIONS

- Heavy metal exposure patterns (mercury, lead, aluminum)
- Environmental toxin burden or chemical exposure
- Mycotoxin exposure patterns or mold-related illness
- Detoxification reactions during cleansing or antimicrobial protocols
- Lymphatic congestion or sluggish toxin clearance
- Sensitivity to environmental chemicals or fragrances
- Stagnation within connective tissues or extracellular matrix
- Support during toxin mobilization and detoxification protocols

HOW IT WORKS

CLNZ supports coordinated detoxification by promoting mobilization, processing, and elimination of accumulated environmental and metabolic burdens. It reinforces hepatic transformation pathways while encouraging extracellular matrix release and lymphatic movement to reduce stagnation. By supporting antioxidant balance and drainage integrity, it helps maintain efficient clearance and minimizes reactivity during cleansing or toxin exposure.

CLINICAL PEARLS

- Initiate prior to antimicrobial or mold protocols to reduce die-off intensity and improve detox tolerance.
- Combine with **LymphGenic** in patterns of stagnation or chemical sensitivity.
- Consider pairing with **Ks – Kidney S** during toxin mobilization.
- Therapeutic dosing recommended during active detoxification protocols. Alternative form: **CXCLNZ** – liquid extract.

SYSTEMIC FORMULAS INC

SUPPLEMENT FACTS

Serving Size: 1 capsule Servings: 60

	Amount Per Serving	%DV
Vitamin E	26mg	173%
L-Methionine	15mg	*
Proprietary Blend	430mg	*
Dandelion (Root); <i>Pfaffia</i> (Root); Milk Thistle (Seed); Mountain Mahogany (Leaf); Yucca (Root); RNA/DNA Blood Tissue Factors (Bovine); Yarrow (Flower); Cinquefoil (Herb); RNA/DNA Liver Tissue Factors (Bovine); Urea; Bitter Almond Oil (Tree Nut)		

*Daily Value not established.

Other Ingredients: Gelatin and Leucine.

KEY INGREDIENTS & BENEFITS

Milk Thistle (Seed), Dandelion (Root), Mountain Mahogany (Leaf): Support hepatic detoxification pathways, bile flow, and antioxidant defense, helping protect hepatocytes and promote clearance of metabolic waste and environmental toxins.

L-Methionine, Vitamin E: Support glutathione production and membrane stability, helping protect liver cells from oxidative stress and support phase I and phase II detoxification processes.

***Pfaffia* (Root), Yucca (Root), Yarrow (Flower), Cinquefoil (Herb):** Provide botanical compounds traditionally used to support extracellular matrix cleansing, lymphatic circulation, and inflammatory balance. These herbs help promote mobilization of accumulated metabolic debris and environmental burdens while supporting connective tissue drainage pathways.

RNA/DNA Liver Tissue Factors (Bovine), RNA/DNA Blood Tissue Factors (Bovine): Provide glandular nucleoprotein substrates traditionally used to support hepatic signaling, enzymatic activity, and coordinated detoxification processes within circulation.

Urea, Bitter Almond Oil (Tree Nut): Support solubilization and transport of metabolic byproducts and environmental compounds to assist elimination pathways during detoxification.

INSTRUCTIONS

Maintenance dose: 1 capsule daily with food

Therapeutic dose: 1 capsule twice daily with food

*Take away from food if stacking with a strong binder protocol

ALLERGEN & DIETARY INFO

- cGMP Facility
- Non-GMO
- Contains animal products
- Gluten Free
- People with tree nut sensitivity should avoid

SAFETY & CONTRAINDICATIONS

- If detoxification reactions such as headache, fatigue, or malaise occur, reduce dosage or use under practitioner supervision.
- Use caution in individuals with nut allergies due to bitter almond oil.
- Avoid use during pregnancy unless directed by a healthcare professional.
- Safety during lactation has not been established; use cautiously.
