

CX4

FungDX

Immunity

Detox

Gut

KEY INDICATIONS

- Intestinal *Candida* overgrowth with bloating or sugar cravings
- Recurrent yeast infections
- Oral thrush or coated tongue associated with fungal dysbiosis
- Post-antibiotic fungal overgrowth
- Athlete's foot or fungal nail infections
- Chronic sinus fungal colonization patterns
- Mixed microbial dysbiosis (yeast and bacterial imbalance)
- Impaired absorption or inability to swallow capsules

HOW IT WORKS

CX4 – FungDX is the concentrated liquid extract form of 4 – FungDX, designed to support control of fungal overgrowth across gastrointestinal and mucosal environments. Botanical antifungal compounds help disrupt fungal cell membranes and interfere with fungal colonization patterns. Aromatic plant oils enhance antimicrobial penetration while supporting mucosal defenses and microbial balance. Together, these actions help reduce fungal burden and assist the body in restoring a healthier microbial environment.

CLINICAL PEARLS

- Combine with **Clear 1 µBiomic** and **Clear 2 µBiomic** for deeper fungal imbalance.
- Use with **3 – Bactrex** for concurrent bacterial and fungal dysbiosis.
- Reducing sugar improves outcomes during yeast overgrowth protocols.
- Therapeutic dosing is appropriate during fungal overgrowth. Alternative forms: **4 – FungDX capsules** and **T4 – FungDX Tincture**.

SYSTEMIC FORMULAS INC

SUPPLEMENT FACTS

Ingredients:

Water; Ethanol;

Extracts of:

Dextrose; Gum Arabic; Pau D'Arco (Bk); Protein (Milk); Wintergreen Oil; Spearmint Oil; L-Lysine HCl; Sete Sangrias (Hb); Leucine; Silica; Clove Oil; Evening Primrose (Fl); Basil (Hb); Oregano (Hb); Thyme (Hb); Ginger (Rt); Eucalyptus (Hb); Hydroxyquinoline; Leptotaenia Oil; Cinnamon (Bk)

KEY INGREDIENTS & BENEFITS

Pau D'Arco (Bk), Oregano (Hb), Thyme (Hb), Cinnamon (Bk), Clove Oil, Hydroxyquinoline: Provide antifungal compounds that help weaken fungal cell membranes and inhibit fungal replication for microbial balance across gastrointestinal, respiratory, and mucosal environments.

Eucalyptus (Hb), Basil (Hb), Ginger (Rt): Support mucosal immune defenses and provide aromatic plant compounds that help the body respond to fungal colonization while supporting respiratory and digestive microbial balance.

Wintergreen Oil, Leptotaenia Oil: Provide concentrated botanical oils traditionally used to assist microbial control and support tissue responses during microbial imbalance.

Evening Primrose (Fl): Supplies fatty acids that support inflammatory balance and cellular resilience during microbial clearing.

Silica: Provides structural mineral support for tissue integrity and cellular resilience during antimicrobial protocols.

L-Lysine HCl: Supports amino acid availability for tissue repair and immune function.

Protein (Milk), Dextrose, Water, Ethanol: Support stability, extraction, solubility, and preservation of botanical constituents, maintaining stability and bioavailability of active compounds.

INSTRUCTIONS

Maintenance dose:

Adults: 3 drops orally 2–3 times daily

Children (ages 1–6): 2 drops orally up to 3 times daily

Therapeutic dose:

Adults: 6 drops orally 2–3 times daily

Children: 4 drops orally 2–3 times daily

ALLERGEN & DIETARY INFO

- cGMP Facility
- Gluten Free
- Non-GMO

SAFETY & CONTRAINDICATIONS

- Not recommended during pregnancy or lactation due to the presence of essential oils and antimicrobial botanicals.
- Contains milk. Avoid use in individuals with milk allergy or sensitivity.
- Use caution in individuals with gastrointestinal sensitivity, as this formula may cause irritation or discomfort.
- Use caution when combining with medications due to potential effects of botanical compounds such as Pau D'Arco (Bk) and Hydroxyquinoline.
- Use under practitioner supervision for extended use.
