

CXCLNZ

Chelator

Detox

Gut

Brain

KEY INDICATIONS

- Heavy metal exposure or suspected metal toxicity
- Environmental chemical toxin burden
- Chronic fatigue associated with toxic load
- Headache, brain fog, or malaise during detoxification
- Lymphatic congestion or poor detox drainage
- Sluggish liver detoxification patterns
- Impaired absorption or inability to swallow capsules

HOW IT WORKS

CXCLNZ is the concentrated liquid extract form of CLNZ, designed to support coordinated detoxification and drainage during toxic burden. The formula helps promote hepatic transformation pathways while encouraging extracellular matrix release and lymphatic movement to reduce stagnation. By supporting antioxidant balance and drainage integrity, it assists the body in mobilizing and clearing accumulated environmental toxins while helping maintain efficient elimination pathways during detoxification protocols.

CLINICAL PEARLS

- Therapeutic dosing recommended during active detoxification or significant toxic burden.
- Combine with **DetoxiGenic** to support bile flow and lymphatic drainage.
- Use **BindGenic** at bedtime to bind toxins mobilized during detox protocols.
- Alternative capsule form: **CLNZ**.

SYSTEMIC FORMULAS INC.

SUPPLEMENT FACTS

Ingredients: Water; Ethanol;
Extracts of: Dandelion (Rt);
Pfaffia (Rt); Milk Thistle (Sd);
Mountain Mahogany (Lf); Yucca
(Rt); Vitamin E; RNA/DNA Blood
Tissue Factors (Bovine); Yarrow
(Flwr); Cinquefoil (Hb);
RNA/DNA Liver Tissue Factors
(Bovine); Urea; L-Methionine;
L-Leucine; Bitter Almond Oil
(Tree Nut)

KEY INGREDIENTS & BENEFITS

Milk Thistle (Seed), Dandelion (Root), Mountain Mahogany (Leaf): Support hepatic detoxification pathways, bile flow, and antioxidant defense to protect hepatocytes and promote clearance of environmental toxins.

L-Methionine, Vitamin E: Support glutathione production and membrane stability, helping protect liver cells from oxidative stress and support phase I and phase II detoxification processes.

***Pfaffia* (Root), Yucca (Root), Yarrow (Flower), Cinquefoil (Herb):** Provide botanical compounds traditionally used to support extracellular matrix cleansing, lymphatic circulation, and inflammatory balance. These herbs help promote mobilization of accumulated metabolic debris and environmental burdens while supporting connective tissue drainage pathways.

RNA/DNA Liver Tissue Factors (Bovine), RNA/DNA Blood Tissue Factors (Bovine): Provide glandular nucleoprotein substrates to support hepatic signaling, enzymatic activity, and coordinated detoxification processes within circulation.

Urea, Bitter Almond Oil (Tree Nut): Support the solubilization and transport of metabolic byproducts to assist elimination pathways during detoxification.

Water, Ethanol: Support optimal extraction and stability of active constituents.

INSTRUCTIONS

Maintenance dose:

Adults: 2–6 drops orally 2–3 times daily

Children (ages 1–6): 1–3 drops orally up to 3 times daily

Therapeutic dose: 6 drops orally up to 6 times daily

ALLERGEN & DIETARY INFO

- cGMP Facility
- Non-GMO
- Contains animal products
- Gluten Free
- People with tree nut sensitivity should avoid

SAFETY & CONTRAINDICATIONS

- If detoxification reactions such as headache, fatigue, or malaise occur, reduce dosage or use under practitioner supervision
- Use caution in individuals with nut allergies due to bitter almond oil.
- Avoid use during pregnancy unless directed by a healthcare professional.
- Safety during lactation has not been established; use cautiously.
