

CXGOLD

Immune Plus

Immunity

Gut

Whole Body

KEY INDICATIONS

- Early cold or flu symptoms (sore throat, fatigue, body aches)
- Sinus congestion, runny nose, or respiratory infections
- Recurrent colds or weakened immune defenses
- Gastrointestinal infections or microbial imbalance
- Swollen lymph nodes or immune activation
- Seasonal immune challenges or increased illness exposure
- When rapid absorption or faster tissue delivery is desired
- Impaired absorption or inability to swallow capsules

HOW IT WORKS

CXGOLD is the concentrated liquid extract form of GOLD, designed to support immune defense during microbial stress. Botanical antimicrobial compounds help support microbial balance while vitamins and cofactors assist immune cell metabolism and antioxidant protection. These combined actions help strengthen mucosal defenses and immune signaling across respiratory and gastrointestinal environments, supporting the body's ability to respond effectively to microbial exposure and recover during acute immune challenges.

CLINICAL PEARLS

- Therapeutic dosing is recommended when acute infection symptoms or significant immune stress are present.
- Pair with **VIVI** to broaden antiviral and antimicrobial coverage during respiratory infections.
- Combine with **CZI** to support immune metabolism.
- Alternative capsule form: **GOLD**.

SYSTEMIC FORMULAS INC

SUPPLEMENT FACTS

Ingredients: H₂O; Ethanol;
Extracts of: Sterilized
(nongermminating) Yeast; Rose
Hips (Hb); Goldenseal (Rt);
Spearmint (Lf); Pyridoxine HCl;
Mg Ascorbate; Niacin; Leucine;
Fenugreek (Sd); Thiamine HCl;
Garlic (Rt); Elder (FI); Cassia
(Bk); Leptotaenia Oil

KEY INGREDIENTS & BENEFITS

Rose Hips (Hb), Magnesium Ascorbate: Provide antioxidant compounds that support immune resilience and help buffer oxidative stress during infection or immune activation.

Goldenseal (Rt), Garlic (Rt), Cassia (Bk): Provide botanical antimicrobial compounds traditionally used to support microbial balance and assist the body in responding to bacterial challenges affecting respiratory and gastrointestinal tissues.

Elder (FI), Fenugreek (Sd), Spearmint (Lf): Support mucosal immune defenses, respiratory comfort, and digestive immune balance while helping maintain healthy microbial environments.

Pyridoxine HCl, Thiamine HCl, Niacin: Provide vitamin cofactors required for immune cell metabolism, enzymatic signaling, and cellular energy production during immune activation.

Sterilized (non-germinating) Yeast, Leucine: Provide nutritional cofactors and amino acid support that assist cellular metabolism and immune responsiveness during infection.

Leptotaenia Oil: Provides botanical compounds traditionally used to support circulation and complement antimicrobial activity.

Water, Ethanol: Support extraction, solubility, and preservation of botanical constituents, maintaining stability and bioavailability of active compounds.

INSTRUCTIONS

Maintenance dose:

Adults: 3 drops orally 2-3 times/day

Children (ages 1-6): 2 drops orally, up to 3 times/day

Therapeutic dose (acute):

6 droppers up to 6 times/day

ALLERGEN & DIETARY INFO

- cGMP Facility
- Gluten Free
- Non-GMO

SAFETY & CONTRAINDICATIONS

- Avoid use during pregnancy due to the presence of goldenseal and cassia.
- Prolonged use of goldenseal-containing formulas should occur under practitioner supervision.
- Safety during lactation has not been established; use cautiously under practitioner supervision.
- Individuals with sensitivity to strong antimicrobial botanicals may experience mild gastrointestinal irritation.
