

Fun Play

Multivitamin & Mineral Liquid For Kids

Whole Body

Cardio

Brain

KEY INDICATIONS

- Suboptimal nutrient intake or limited dietary diversity
- Growth and development support during childhood
- Immune resilience in frequently sick or exposed children
- Low energy, fatigue, or poor stamina
- Cognitive support for focus, learning, and development
- Bone, nerve, and muscle development support
- Increased nutrient demand during growth spurts or high activity
- Antioxidant support during periods of environmental or physiological stress

HOW IT WORKS

Fun Play provides essential vitamins and minerals in bioavailable, whole-food forms to support foundational nutrient status in children. These nutrients act as cofactors in enzymatic pathways involved in energy production, methylation, immune function, and neurological development. By supporting cellular metabolism and nutrient-dependent processes, it helps maintain steady energy, cognitive function, and growth, especially in children with limited intake or increased physiological demand.

CLINICAL PEARLS

- Pair with **Brainy Play** when cognitive development or attention support is needed.
- Pair with **Tuff Play** during frequent illness or increased immune demand.
- Combine with **Metabo-Shake** when caloric intake or meal replacement is needed.
- Therapeutic dosing recommended during periods of malnutrition and illness. Continue maintenance for ongoing nutritional support.

SUPPLEMENT FACTS

Serving Size: 2mL (Children 2–4 yrs)
Servings Per Bottle: 60

	Amount Per Serving	%DV 2–4 yrs
Vit C (Ascorbate)	12.5 mg	83%
Vit E (Mixed Tocopherols)	8.3 mg	138%
Vit B1 (Thiamine)	3.1 mg	620%
Vit B2 (Riboflavin)	3.1 mg	620%
Vit B3 (Niacin)	4.4 mg NE	73%
Vit B6 (Pyridoxine)	6.25 mg	1250%
Vit B9 (Folate)	50 mcg DFE	33%
Vit B12 (Hydroxocobalamin)	3 mcg	333%
Biotin	12.5 mcg	125%
Vit B5 (Pantothenate)	7.5 mg	375%
Calcium	2.5 mg	1%
Magnesium	0.25 mg	<1%
Zinc	0.9 mg	30%
Selenium	8.75 mg	44%
Copper	0.19 mcg	<1%
Manganese	0.25 mg	21%
Chromium	15 mcg	136%
Potassium	2.5 mg	<1%
Mixed Carotenoids	37.5 mcg	*

Extracts of: Guava; Lemon; Amla; Sesbania;
Holy Basil; Annatto

*Daily Value not established.

Other Ingredients: Water, Glycerin, Natural
Flavors, Dextrose (Organic Grape), Tic Gum,
Luo Han Guo, Potassium Sorbate, Stevia.

KEY INGREDIENTS & BENEFITS

Vitamins B1, B2, B3, B5, B6, B9, Biotin, and B12: Support energy production, neurotransmitter synthesis, and methylation pathways essential for brain development, focus, and metabolic function.

Vitamin C, Vitamin E: Provide antioxidants supporting immune response, collagen, and cellular repair during growth, helping protect developing brain, skin, and connective tissues from oxidative stress generated during normal energy production and growth.

Calcium, Magnesium, Zinc, Selenium, Copper, Manganese, Chromium, Potassium: Function as enzyme cofactors supporting bone development, immune defense, glucose metabolism, electrolyte balance, and cellular health.

Mixed Carotenoids, Annatto: Support visual development and help protect developing retinal cells and neural tissues from free radical damage generated during normal cellular activity and growth.

Guava, Lemon, Amla, Sesbania, Holy Basil: Provide whole-food phytonutrients and cofactors that support nutrient absorption and protect cells from oxidative damage.

Other Ingredients: Provide natural flavoring, stabilization, and preservation to maintain product integrity, palatability, and consistency of the liquid formulation.

ALLERGEN & DIETARY INFO

- cGMP Facility
- Gluten Free
- Non-GMO

INSTRUCTIONS

Maintenance dose:

Children under 2: consult a
nutritionist or natural health care
practitioner

Children 2–4: Take 1 mL daily

Children 4+: Take 2 mL daily

Therapeutic dose: Double the
maintenance dose for 2–4 weeks

SAFETY & CONTRAINDICATIONS

- Not intended for use during pregnancy or lactation; consider VitaGenic for adult and maternal nutrient support.
- Formulated for pediatric use under the supervision of a healthcare practitioner; supports growth, development, energy production, and immune function, with dosing individualized based on age, size, and clinical needs.
