

I Eyes

Brain

Skin

Hormone

KEY INDICATIONS

- Eye strain from prolonged screen use
- Early visual fatigue or reduced visual clarity
- Night vision challenges
- Retinal stress from prolonged visual demand
- Dry, irritated, or red eyes
- Allergy-related eye discomfort
- Headaches associated with visual strain
- Foundational support for age-related visual changes

HOW IT WORKS

I – Eyes supports visual function by providing retinal nourishment, microvascular circulation, and functional communication between ocular, hepatic, and neuroendocrine pathways. The formula helps maintain retinal pigment function, supports ocular capillary health, and protects ocular tissues from free radical damage. By supporting structural aspects of visual processing, including optic nerve transmission and cellular metabolism, the formula helps sustain visual performance during ongoing demand and natural changes over time.

CLINICAL PEARLS

- Pair with **NeuroVision** when macular degeneration, contrast loss, or optic nerve decline is present.
- Pair with **ImmuneGenic** when ocular inflammation or irritation persists.
- Therapeutic dosing recommended during persistent dry eye, progressive vision decline, and retinal stress.
- Continue maintenance for ongoing visual support, especially with high screen exposure or aging-related changes.

SUPPLEMENT FACTS

Serving Size: 1 capsule

Servings: 60

	Amount Per Serving	%DV
Vit A (Retinyl Acetate)	3150 mcg RAE	350%
Vit E (d-alpha-tocopheryl succinate)	14 mg	93%
Niacin	3.5 mg NE	22%
Vit B6 (Pyridoxine HCl)	4.8 mg	282%
Proprietary Blend	370 mg	*
Rue (Herb); Chapeu De Couro (Leaves); Eyebright (Herb); Boldo do Chile (Leaves); Carrot (Root); L-Proline; L-Cysteine; RNA/DNA Liver Tissue Factors (Bovine); RNA/DNA Eye Tissue Factors (Porcine); L-Valine; RNA/DNA Pituitary Tissue Factors (Porcine); RNA/DNA Brain Tissue Factors (Porcine); Beta Carotene		

*Daily Value not established.

Other Ingredients: Cellulose, Leucine, Vegetable Stearate, and Silica.

INSTRUCTIONS

Maintenance dose: 1 capsule daily with food

Therapeutic dose: 1 capsule twice daily with food for 4-8 weeks

ALLERGEN & DIETARY INFO

- cGMP Facility
- Gluten Free
- Non-GMO

SAFETY & CONTRAINDICATIONS

- Generally considered safe for pregnancy and lactation; however, due to its targeted botanical and tissue-support compounds and vitamin A, use under the strict guidance of a qualified healthcare practitioner.
- Appropriate for pediatric use under professional supervision; supports visual development and retinal function, with dosing individualized based on age, size, and clinical presentation.

KEY INGREDIENTS & BENEFITS

Vitamin A, Beta Carotene: Support photoreceptor function, rhodopsin production, and the integrity of the retinal surface, helping with light adaptation, night vision, and visual clarity.

Vitamin E, Niacin, Vitamin B6: Provide antioxidant protection against free radical damage, support ocular microcirculation, and supply cofactors required for retinal and optic nerve function.

Rue, Eyebright, Boldo do Chile, Chapeu De Couro, Carrot: Provide botanical compounds traditionally used to support ocular comfort, improve blood flow to eye tissues, and support liver-related processes that influence visual function.

L-Proline, L-Cysteine, L-Valine: Support structural proteins, glutathione antioxidant activity, and repair processes that help maintain retinal and optic tissue function.

RNA/DNA Tissue Factors (Liver, Eye, Pituitary, Brain): Support coordination between ocular tissues, visual pathways, and regulatory systems involved in visual processing.
