

Ks

Kidney S

Detox

Hormone

Whole Body

KEY INDICATIONS

- Sluggish urinary flow or incomplete bladder emptying
- Urinary frequency, urgency, or inconsistent stream
- Kidney–bladder coordination issues affecting voiding
- Urinary irritation or recurrent cystitis patterns
- Increased urinary demand during detoxification
- Fluid imbalance with irregular urination (not tissue edema)
- Renal stress associated with endocrine dysregulation
- Variable hydration with inconsistent urinary output

HOW IT WORKS

Ks – Kidney S supports coordination between the kidneys and bladder to improve urinary flow, timing, and elimination. It enhances communication within the kidney–adrenal–thyroid axis to regulate fluid handling and urinary patterns. This helps normalize voiding, reduce irritation, and support consistent elimination without directly increasing filtration capacity or aggressively mobilizing fluid making this formula ideal when urination is inconsistent, incomplete, or irritated.

CLINICAL PEARLS

- Pair with **K – Kidney** for chronic kidney stress and reduced filtration capacity.
- Pair with **LymphGenic** when drainage needs extend beyond urinary function.
- Pair with **KDIR** when edema or water retention is present.
- Therapeutic dosing recommended during active urinary symptoms, especially changes in how urine flows, feels, or is controlled.

SUPPLEMENT FACTS

Serving Size: 2 capsules

Servings: 30

	Amount Per Serving	%DV
Vitamin A	15 mcg RAE	2%
Vitamin C (Calcium Ascorbate)	42.5 mg	47%
Calcium (Ascorbate, Carbonate)	19.5 mg	2%
Magnesium (Sulfate)	7 mg	2%
Proprietary Blend	780 mg	*
Rose Hips (Herb); Gelatin; RNA/DNA Kidney Tissue Factors (Bovine); Juniper (Berries); Buchu (Leaves); Sete Sangrias (Herb); Alfalfa (Herb); Spearmint (Leaves); Cleavers (Herb); Citrus Bioflavonoids; Allantoin; L-Serine; L-Phenylalanine; RNA/DNA Adrenal Tissue Factors (Bovine); RNA/DNA Thalamus Tissue Factors (Bovine); L-Tyrosine; RNA/DNA Thyroid Tissue Factors (Bovine); Aloe Vera (Leaves); Rose Oil; Sodium Copper Chlorophyll		

*Daily Value not established.

Other Ingredients: Gelatin and Leucine.

KEY INGREDIENTS & BENEFITS

Vitamin A, Vitamin C, Calcium, Magnesium: Support antioxidant defense, collagen integrity, electrolyte balance, and enzymatic processes necessary for renal metabolic function.

RNA/DNA Kidney Tissue Factors, RNA/DNA Adrenal Tissue Factors, RNA/DNA Thalamus Tissue Factors, RNA/DNA Thyroid Tissue Factors: Provide nucleic acids and peptides that support transcription activity and endocrine coordination across the Kidney–Adrenal–Thalamus–Thyroid regulatory axis.

Juniper, Buchu, Cleavers: Promote urinary flow, renal circulation, and fluid mobilization while supporting elimination of metabolic waste.

Alfalfa, Sete Sangrias, Spearmint: Provide mineral support and traditional diuretic botanicals that assist detoxification and urinary tract comfort.

Rose Hips, Citrus Bioflavonoids, Allantoin, Aloe Vera, Rose Oil, Sodium Copper Chlorophyll: Supply antioxidant protection and membrane stability while supporting detoxification and soothing urinary tissues.

Gelatin, L-Serine, L-Phenylalanine, L-Tyrosine: Provide amino acids that support collagen formation, renal tissue repair, and neuroendocrine signaling involved in metabolic regulation.

ALLERGEN & DIETARY INFO

- cGMP Facility
- Non-GMO
- Gluten Free

SAFETY & CONTRAINDICATIONS

- Contraindicated during pregnancy and lactation due to uterine-stimulating properties of Juniper and Buchu.
- Appropriate for pediatric use under professional supervision with dosing adjusted based on age, size, and clinical presentation; supports fluid regulation, urinary flow, and gentle elimination in children prone to retention or irregular urination.
- Avoid use in individuals with phenylketonuria (PKU), as phenylalanine cannot be properly metabolized.
