

Ls

Liver S

Detox

Gut

Metabolism

KEY INDICATIONS

- Impaired liver toxin processing
- Chemical or environmental toxin exposure
- Detox reactions due to impaired hepatic clearance
- Skin breakouts associated with toxin overload
- Elevated liver enzymes (AST, ALT, GGT)
- Sensitivity to detox support or difficulty tolerating detox protocols
- Poor tolerance to alcohol, medications, or chemicals
- Hepatic activation support during detox protocols

HOW IT WORKS

Ls – Liver S enhances hepatic detoxification performance by supporting cytochrome P450 enzyme activity and intracellular metabolic function within hepatocytes. By strengthening mineral-dependent enzyme systems and liver communication pathways, the formula promotes efficient toxin processing and improves the liver's ability to respond during periods of increased metabolic burden. This targeted support helps optimize hepatic clearance capacity and maintain consistent metabolic function during ongoing exposure to chemicals, medications, or internal waste.

CLINICAL PEARLS

- Therapeutic dosing recommended when detox reactions or toxin mobilization symptoms are pronounced.
- Pair with **L – Liver** when foundational support is needed before increasing detox activity.
- Pair with **DetoxiGenic** when toxin processing is high and glutathione or antioxidant support is needed.
- Use **CXL – Liver** when liquid delivery is needed.

SYSTEMIC FORMULAS INC

SUPPLEMENT FACTS

Serving Size: 2 capsules

Servings: 30

	Amount Per Serving	%DV
Vitamin C (Magnesium Ascorbate)	180 mg	300%
Chromium (4OH-ISO/Picolinate)	110 mcg	92%
Magnesium (Ascorbate, Chelate)	25 mg	6%
Vitamin A	2750 IU	55%
Iron (Chelate)	2.4 mg	13%
Potassium (Chelate)	5.2 mg	<1%

Proprietary Blend	690 mg	*
Rose Hips (Hb); Beet (Rt); Sete Sangrias (Lf); Cha de Bugre (Lf); Boldo Do Chile (Lf); Oregon Grape (Rt); Lemongrass (Hb); Yellow Dock (Hb); Blackberry (Lf); Fringe Tree (Hb); RNA/DNA Adrenal Tissue Factors; Wormwood Herb; Choline Bitartrate; RNA/DNA Thymus Tissue Factors; RNA/DNA Pituitary Tissue Factors; RNA/DNA Liver Tissue Factors		

*Daily Value not established.

Other Ingredients: Gelatin, Dextrose (Organic Grape), and Leucine.

INSTRUCTIONS

Maintenance dose: 1 capsule twice daily with food

Therapeutic dose: 2 capsules twice daily with food

ALLERGEN & DIETARY INFO

- cGMP Facility
- Gluten Free
- Non-GMO

SAFETY & CONTRAINDICATIONS

- Use during pregnancy or lactation should be guided by a qualified healthcare practitioner due to the presence of hepatic-stimulating botanicals; may support normal liver processing and resilience to environmental exposures during pregnancy and lactation.
- Appropriate for pediatric use under professional supervision with dosing adjusted based on age, size, and clinical presentation; consider CXLs – Liver S liquid when a child-friendly option is needed.

KEY INGREDIENTS & BENEFITS

Vitamin C, Vitamin A: Provide antioxidant protection and support hepatocyte resilience during toxin exposure and metabolic stress.

Magnesium, Potassium: Supply mineral cofactors that support detox enzyme activity, cellular metabolism, and electrolyte balance.

Chromium, Iron: Support metabolic regulation and oxygen-dependent enzymes involved in liver detoxification.

Rose Hips, Beet, Sete Sangrias, Cha de Bugre: Support hepatic circulation and metabolic regulation involved in toxin processing.

Boldo Do Chile, Oregon Grape, Fringe Tree: Provide botanical support that supports efficient handling of internal and external compounds.

Lemongrass, Yellow Dock, Blackberry, Wormwood: Provide bitter phytochemicals that support metabolic activity and enhance hepatic responsiveness under load.

Choline Bitartrate: Supports methyl donation, phospholipid synthesis, and hepatic metabolism involved in cellular processing and transport.

RNA/DNA Adrenal Tissue Factors, RNA/DNA Thymus Tissue Factors, RNA/DNA Pituitary Tissue Factors, RNA/DNA Liver Tissue Factors: Support liver-endocrine signaling and enzyme-level activity involved in detoxification pathways.
