

M+

Male/Endocrine

Hormone

Whole Body

Metabolism

KEY INDICATIONS

- Reduced libido or diminished sexual interest
- Erectile performance concerns related to circulation
- Declining stamina or endurance in men
- Age-related androgen changes
- Reduced motivation or male vitality decline
- Decreased recovery after physical exertion
- Male mood changes associated with hormonal shifts
- Stress-related reductions in sexual performance

HOW IT WORKS

M+ supports male endocrine function by regulating testosterone activity, improving blood flow, and enhancing communication along the hypothalamic-pituitary-gonadal (HPG) axis. By supporting the hypothalamus, pituitary, and testes, it helps maintain hormone output, sexual function, and performance. It also supports vascular tone and nitric oxide activity, essential for erectile function and endurance. This integrated approach promotes hormone balance, circulation, and male performance during stress, aging, or increased physical demand.

CLINICAL PEARLS

- Consider **Mpc – Prostata Corrector** and **Mpr – Prostata Ovatum** for male endocrine drive, prostate support, and urinary function.
- Consider **NeuroGenic** when low drive or focus accompany reduced performance, motivation, or mood.
- Consider **eVENTa** to optimize blood flow that drives libido, stamina, and recovery.
- Therapeutic dosing recommended for low free testosterone, reduced libido, or poor endurance.

SYSTEMIC FORMULAS INC

SUPPLEMENT FACTS

Serving Size: 1 capsule

Servings: 60

	Amount Per Serving	%DV
--	--------------------	-----

Proprietary Blend	400 mg	*
Damiana (Leaves); <i>Eurycoma longifolia</i> (Ext); Muira Puama (Root); RNA/DNA Orchic Tissue Factors (Bovine); Clavo Huasca (Herb); <i>Lepidium meyenii</i> (Root); Avocado; Bamboo (Leaves); RNA/DNA Prostate Tissue Factors (Bovine); Hops (Ext); Boldo do Chile (Leaves); <i>Epimedium grandiflorum</i> (Herb); African Yohimbe (Bark); Eucalyptus (Leaves); DHEA; Catuaba (Bark)		

*Daily Value not established.

Other Ingredients: Gelatin, Leucine, and Dextrose (Organic Grape).

KEY INGREDIENTS & BENEFITS

Damiana (Leaves), Muira Puama (Root), Catuaba (Bark), Clavo Huasca (Herb): Support healthy libido, nervous system responses, and male sexual drive through traditional tonifying mechanisms.

***Eurycoma longifolia* (Ext), *Lepidium meyenii* (Root):** Support endogenous testosterone activity, stamina, and physical endurance while optimizing HPG axis responses.

***Epimedium grandiflorum* (Herb), African Yohimbe (Bark):** Support nitric oxide production and pelvic blood flow, essential for erectile responses, vascular performance, and physical endurance.

RNA/DNA Orchic Tissue Factors (Bovine), RNA/DNA Prostate Tissue Factors (Bovine): Provide targeted cellular peptides and nucleic acids to support the health and functional recovery of male reproductive organs.

DHEA: Serves as a vital androgen precursor, supporting natural testosterone synthesis, vitality, metabolism, and age-related hormonal decline.

Avocado, Bamboo (Leaves), Boldo do Chile (Leaves): Provide trace nutrients, silica, and supportive botanical compounds for systemic vitality and metabolic health.

Hops (Ext), Eucalyptus (Leaves): Support healthy circulation, nervous system tone, and stress adaptation.

INSTRUCTIONS

Maintenance dose: 2 capsules twice daily, with or without food

Therapeutic dose: 3 capsules twice daily, with or without food for 8–12 weeks then reassess

ALLERGEN & DIETARY INFO

- cGMP Facility
- Gluten Free
- Non-GMO

SAFETY & CONTRAINDICATIONS

- Consult your healthcare practitioner prior to combining M+ with medications for testosterone or erectile dysfunction to ensure there are no potential interactions.
- Not recommended for use during pregnancy or lactation due to the presence of DHEA and hormone-active botanical compounds.
- Not intended for pediatric use due to the presence of DHEA and hormone-active compounds, which are not appropriate during normal developmental stages.
