

Mpc

Prostate Corrector

Immunity

Hormone

Whole Body

KEY INDICATIONS

- Benign prostatic hypertrophy (BPH) and prostate enlargement patterns
- Urinary frequency, urgency, nocturia, or incomplete emptying
- Weak urinary flow or urinary hesitancy
- Prostate congestion or inflammatory discomfort
- Microbial or post-infectious prostate involvement
- Pelvic pressure or prostate-related discomfort
- Hormone-influenced prostate changes with aging
- Recurrent prostate symptoms following antibiotic use

HOW IT WORKS

Mpc – Prostate Corrector supports prostate function by addressing congestion, inflammation, microbial balance, and hormonal signaling at the gland level. It enhances microcirculation to improve nutrient delivery and reduce pressure, while supporting immune and antimicrobial activity within prostate tissue. The formula also helps coordinate hypothalamic-pituitary-gonadal signaling that influences prostate growth and function. This integrated approach promotes improved urinary flow, reduced irritation, and long-term prostate resilience, particularly in cases of enlargement, inflammation, or recurrent dysfunction.

CLINICAL PEARLS

- Add **Clear 1 μBiotic** when microbial imbalance is contributing to prostate inflammation.
- Consider **M+** when hormonal imbalance is driving prostate enlargement/urinary symptoms.
- Add **DetoxiGenic** when toxic load is contributing to prostate irritation.
- Use therapeutic dosing for 4-6 weeks when symptoms are pronounced. Transition to maintenance or discontinue once stabilized.

SYSTEMIC FORMULAS INC

SUPPLEMENT FACTS

Serving Size: 1 capsule

Servings: 60

	Amount Per Serving	%DV
Proprietary Blend	490 mg	*
Pau D'Arco (Bark); Ginkgo Biloba (Extract); Pau D'Alho (Leaves); Pygeum (Bark); RNA/DNA Prostate Tissue Factors (Bovine); Abuta (Root); RNA/DNA Orchic Tissue Factors (Bovine); Saw Palmetto (Extract); Laurel (Leaves); Jatoba (Leaves); RNA/DNA Pancreas Tissue Factors (Bovine); RNA/D- NA Thymus Tissue Factors (Bovine); RNA/DNA Pituitary Tissue Factors (Por- cine); RNA/DNA Hypothalamus Tissue Factors (Bovine); Lycopene; Goldenseal (Root); <i>Echinacea Purpurea</i> (Root); Thyme (Herb)		

*Daily Value not established.

Other Ingredients: Gelatin, and Leucine.

KEY INGREDIENTS & BENEFITS

Pygeum, Saw Palmetto: Provide lipid-sterol and triterpene compounds that support healthy 5-alpha reductase modulation, help reduce inflammation, and promote balanced prostate size and urinary flow.

Pau D'Arco, Goldenseal, *Echinacea purpurea*, Thyme, Laurel, Jatoba, Pau D'Alho: Form a botanical antimicrobial and immune-supportive complex that helps maintain microbial balance and support tissue integrity within the urogenital system.

Ginkgo Biloba: Enhances microcirculation and antioxidant protection, supporting nutrient delivery and cellular resilience within prostate tissue.

Abuta: Provides alkaloid-rich botanical support that modulates inflammatory pathways and cellular growth patterns associated with prostate enlargement.

RNA/DNA Tissue Factors (Prostate, Orchic, Pancreas, Thymus, Pituitary, Hypothalamus): Provide glandular nucleic acid components that support cellular repair, endocrine coordination, immune balance, and metabolic processes influencing prostate function.

Lycopene: Provides antioxidant protection that reduces oxidative stress associated with enlargement and aging.

INSTRUCTIONS

Maintenance dose: 1 capsule twice daily with food

Therapeutic dose: 2 capsules twice daily with food

ALLERGEN & DIETARY INFO

- cGMP Facility
- Gluten Free
- Non-GMO

SAFETY & CONTRAINDICATIONS

- Contains bovine/porcine-derived ingredients; not suitable for individuals following a vegan or vegetarian lifestyle.
- Not intended for pediatric use; this formula is designed for adult male prostate health and hormone-related changes.
