

Mpr

Prostata Ovatum

Immunity

Hormone

Whole Body

KEY INDICATIONS

- Reduced tissue elasticity or dryness in reproductive tissues
- Low libido associated with poor tissue responsiveness (not primary hormone deficiency)
- Decreased lubrication or comfort in reproductive tissues
- Joint stiffness or reduced synovial fluid production (bursa support)
- Reduced glandular responsiveness despite adequate hormone levels
- Age-related decline in tissue softness and flexibility
- Circulatory support to reproductive tissues affecting responsiveness
- Suboptimal tissue quality impacting sexual comfort or function

HOW IT WORKS

Mpr – Prostata Ovatum provides concentrated fatty acids that deliver comprehensive nourishment to male and female reproductive systems. Supports glandular integrity, tissue softness, and elasticity while promoting synovial fluid production for both joint and reproductive tissue function. By enhancing gland responsiveness and structural flexibility, it helps maintain healthy libido, sexual function, and reproductive processes, while also supporting the bursa for improved joint comfort and overall tissue mobility.

CLINICAL PEARLS

- Pair with **M+** to support healthy testosterone levels, libido, and overall performance.
- Pair with **Mpc – Prostata Corrector** when prostate enlargement or urinary changes are present.
- Pair with **F+** for female hormonal balance and reproductive health.
- Use therapeutic dosing for 4–8 weeks during reduced lubrication, libido, or tissue elasticity.

Other Ingredients: Cucurbita Pepo Oil, Gelatin, Glycerin, and Purified Water.

INSTRUCTIONS

Maintenance dose: 1 capsule twice daily with food

Therapeutic dose: 2 capsules twice daily with food

KEY INGREDIENTS & BENEFITS

Cucurbita Pepo Oil: Provides a rich spectrum of essential and non-essential fatty acids, including linoleic, oleic, and palmitic acids, along with naturally occurring zinc, carotenoids, and vitamin E fractions that support gonadal and connective tissue health. These lipids integrate into cellular membranes to improve flexibility, lubrication, and tissue responsiveness within the prostate, ovaries, and testes. The formula supports synovial fluid production and bursa function, contributing to both joint mobility and reproductive tissue comfort. By enhancing circulation and maintaining soft, resilient tissue structure, it supports healthy libido, sexual responsiveness, and reproductive function. This nutrient-dense oil also supports balanced inflammatory signaling and cellular resilience in tissues affected by aging, dryness, or reduced metabolic activity.

ALLERGEN & DIETARY INFO

- cGMP Facility
- Gluten Free
- Non-GMO

SAFETY & CONTRAINDICATIONS

- Generally considered safe during pregnancy and lactation under the guidance of a qualified healthcare practitioner; provides essential fatty acids that support tissue health and cellular function.
- Not typically intended for pediatric use given its targeted support for reproductive and prostate health.
- Use caution in individuals with seed sensitivities (pumpkin seed).
